

Get a **SNEAK PEEK** into your MAILBOX

The Postal Service™ offers a feature to help customers track mail and package delivery. **Informed Delivery®** not only allows customers to see incoming mail and packages, it also allows packages to be rescheduled for delivery when someone is home to receive them.

- Sign up for free and customize delivery at informedelivery.com.
- Receive text or email notifications when a package is en route and when it has been delivered.
- Provide delivery instructions and authorize your carrier to leave the package in a specific location.
- Request your package to be held at a Post Office™ by choosing the **Hold for Pickup** option.
- Redirect packages when not at home to receive them by choosing the **USPS Package Intercept®** option (*additional fee*).
