UNITED STATES POSTAL SERVICE NOTES TO PUBLIC COST AND REVENUE ANALYSIS Fiscal Year 2016

1. Public Cost and Revenue Analysis

The U.S. Postal Service (Postal Service) has annually prepared the Domestic Cost and Revenue Analysis (CRA) and International Cost and Revenue Analysis (ICRA) covering the period October 1 through September 30. The CRA and ICRA were created to aid in determining that the statutory requirements under Title 39 U.S. Code are met, that "each class of mail or type of mail service bear the direct and indirect costs attributable to that class or service...."

As a result of the enactment of Public Law 109-435 on December 20, 2006, the Postal Service continues to produce cost and revenue information by product using methods approved by the Postal Regulatory Commission (PRC). The PRC methods are described in the PRC's Annual Compliance Determination Report. The Fiscal Year 2016 Public Cost and Revenue Analysis Report (PCRA) combines revenue and cost data from both the domestic and international CRAs. It represents the PRC's methodology of presenting each mail category's estimated volume variable and product specific aggregate and unit costs. The PCRA also displays revenue, pieces and weight information from the Revenue, Pieces and Weight (RPW) report. The Public CRA differs from the Non-Public CRA by not detailing costs for specific products defined by the PRC as "Competitive."

The postal system of accounts is the basis for PCRA data; however, the postal system of accounts generally does not accumulate financial data by category of mail. Apportionment factors, derived from various postal operational and statistical information sources, are required for development of the data for PCRA purposes. Some of these sources (e.g., In-Office Cost System and Origin-Destination Information System -Revenue, Pieces and Weight (ODIS-RPW) system) are dedicated to this purpose and involve extensive statistical sampling of postal activities during the year. Calculated amounts are compared and scaled to actual data in the postal system of accounts, as appropriate.

2. Definitions

<u>Volume Variable Cost</u> – Volume variable costs are calculated by multiplying the total volume of the class or product by the change in unit costs resulting from a change in its volume alone, when the volumes of other products remain constant.

<u>Product Specific Cost</u> – Product specific costs represent costs that are not volume variable but, for certain products, are directly or indirectly caused by that product.

Volume Variable and Product Specific Cost - Sum of volume variable and product specific cost.

Contribution – Revenue per piece minus the sum of volume variable and product specific cost per piece.

<u>Cost Coverage</u> – Revenue per piece as a percentage of the aggregate volume variable and product specific cost per piece (unit revenue divided by unit volume variable and product specific cost.)

Fees – Fees associated with a specific class of mail or product are included in the reported revenue for that class or product.

International Mail - International mail detail is provided in the International Cost and Revenue Analysis report.

Other Domestic Ancillary Services – Includes identifiable costs for the following domestic services: return receipts, signature confirmation, certificate of mailing, merchandise return service, merchandise return receipt, restricted delivery, business reply, address correction services, bulk parcel return service, parcel airlift, shipper paid forwarding, premium stamped stationary, premium stamped cards and that portion of delivery confirmation not transferred to Priority Mail and Parcel Select Mail.

International Ancillary Services – Includes identifiable costs for certificate of mailing, outbound registered mail, inbound registered mail, outbound return receipt, inbound return receipt, inbound restricted delivery, inbound restricted delivery, outbound insurance, inbound insurance, customs clearance and delivery fees, reply coupon service, inbound reply coupon service, business reply mail service and inbound business reply mail service. These are fees for additional services related to mail products that have been already counted in other sections of this report.

<u>Negotiated Service Agreement Mail (NSA)</u> – Where there are negotiated service agreements, their costs are shown in separate rows within each applicable class. The details for both domestic and international NSAs are provided in the Annual Compliance Report.

<u>Miscellaneous Items</u> – Includes philatelic sales, fees, fines, unclaimed money from dead letters, sales of services performed for government agencies and private contractors. Not included is \$3.6 million of imputed interest earned on money order float, which is reclassified to domestic and international money orders. Includes \$948.5 million revenue (prior years) due to the update of customers' retention and usage habits of Forever Stamps. Refer to Form 10-K for additional discussion.

3. Cards

Volume variable costs are the printing costs related to stamped cards.

4. <u>Credit Card Authentication</u>

Revenue for Credit Card Authentication represents the total revenue from Credit Card Authentication service, and the Expenses include credit card fees, payment switch fees and call center support. Cost coverage does not equal Revenue divided by Expense because third-party agreements reduce both Revenues and Expenses.

5. Miscellaneous Adjustments

A) Imputed interest on money order float is included with interest income in the 2016 Annual Report (Form 10-K) but is distributed to money order products in the PCRA Report.

| | (millions) | | |
|--|-----------------|---------------------|-----------------|
| Operating and Other Revenue per 10-K Annual Report | \$71,498 | | |
| Interest Income per 10-K Annual Report | 32 | | |
| Total Revenue | <u>\$71,530</u> | PCRA Report Revenue | <u>\$71,530</u> |

B) Interest expense shown separately in the 2016 Annual Report (Form 10-K) is reported as part of total expenses in the PCRA Report.

| | (millions) | | |
|---|-----------------|---------------------|-----------------|
| Operating Expenses per 10-K Annual Report | \$76,899 | | |
| Interest expense per 10-K Annual Report | <u>222</u> | | |
| Total Expenses | <u>\$77,121</u> | PCRA Report Expense | <u>\$77,121</u> |

6. Other

All amounts in the PCRA Report are rounded and may not add to totals. Percentages are rounded to the nearest decimal.
