CELEBRATE AMERICA
WITH STAMPS!

Each year, America’s rich history, art, culture, and traditions are honored by the United States Postal Service with the release of new beautiful stamps. Stamp subjects are as diverse as America itself—ranging from literary figures, scientists, and movie icons to landscapes, symbols, and moments in history—each offering an educational value and connection.

In June, the first set in a multiyear stamp series, The Flags of Our Nation, will be released. We hope you share our enthusiasm for this series and use it as an engaging teaching tool in your classroom.

Visit www.usps.com to learn more about the series and to find other stamps celebrating the U.S. history and culture you are exploring with your students!

WALL POSTER MAP
Display the wall poster prior to beginning your lessons, and discuss the state flags highlighted. Tell students that the design, images, and colors used on state flags often hold significant meaning. For example:

★ Arkansas’ flag has 25 stars because it was the 25th state admitted to the U.S.
★ Delaware’s state flag colors represent those of George Washington’s army uniform.
★ California’s state flag was designed when settlers there declared their independence from Mexico. The single star on the flag was a reference to Texas, the lone star state, which had already won its independence from Mexico.

Research Project: Ask students to choose a state and research its symbols, including its state flag, and explain the significance each symbol holds for the state.

REPRODUCIBLES

ACTIVITY ONE: STATE YOUR SYMBOLS
In this activity, students do research and learn about the significance and use of state symbols.

Follow-Up Lesson: Work as a class to create your own set of symbols. Assign groups of students to different tasks, including designing a class flag, and naming a class nickname, motto, fruit, vegetable, animal, song, and dance.

ACTIVITY TWO: ALL OVER THE MAP
This activity reinforces students’ geographic, directional, and map skills while conveying interesting facts and state trivia.

Follow-Up Lesson: Have students research five trivia facts about a state and write clues for classmates to guess which state is being described.

FAMILY TAKE-HOME QUIZ
Created as a fun parent-child interaction, this page asks parents and children to guess (or look up!) the answers to amusing, out-of-the-ordinary state trivia.

WHAT DO YOU THINK?
Fill out the enclosed evaluation, or visit www.wrinsiders.com/usps to share your thoughts. Thank you!
