Drive defensively: Safety depends on you!

Spring brings with it a budding of flowers, visions of outdoor family activities, an increase in pedestrian traffic, warm days and children at play. During this time of year, it is especially important to look out for our young children and pedestrians who are now out and about enjoying the mild weather that comes with the arrival of Spring. Please be extra vigilant for these individuals as you go about your daily commute and delivery routes. Safety depends on you on and off the job.

Star Wars stamps ripple the universe, set to arrive May 25

It started as a buzz surrounding 400 collection boxes wrapped to look like R2-D2. It spread across the Internet as friends told friends about the *Star Wars* teaser on the USPS Web site. And then, in front of Grauman's Chinese Theatre, it burst across television screens like the Millennium Falcon going into hyperdrive — the *Star Wars* stamps were finally unveiled.

The *Star Wars* stamps go on sale May 25.

Within minutes after the unveiling, television and news outlets here and abroad were reporting on air and online about the 15 stamps that go on sale May 25.

To find out which is the most popular character, the Postal Service is urging people to go to www.uspsjedimaster.com between now and May 23 to cast a vote for their favorite *Star Wars* image. The winner will get his or her own stamp later this summer.

USPS employees are allowed to vote for their favorite image but are ineligible to enter the contest to win the Grand Prize VIP trip for four to *Star Wars* Celebration IV in Los Angeles, May 24–28, since the contest is a postal-sponsored event. See www.uspsjedimaster.com/main/rules.html for a complete listing of rules and eligibility requirements.

Smithsonian National Postal Museum opens new exhibit: "U.S. Postal Inspectors: The Silent Service"

Protecting the mail is the job of the U.S. Postal Inspection Service. Sometimes called the silent service, it's one of the oldest federal law enforcement agencies in the country. Postal inspectors also safeguard employees and customers from criminal attack and protect the nation's mail system from criminal misuse.

Now the Smithsonian Postal Museum has opened a new exhibit about the agency. "U.S. Postal Inspectors: The Silent Service" lends a historical viewpoint to the agency's storied past and highlights some of its most prominent investigations, from mail train robberies in the 1800s to the Unabomber in the late 1990s. The exhibit runs through Feb. 28, 2009.

The museum is located in the old Post Office building next to Union Station in Washington, DC. It's open seven days a week from 10 A.M. to 5:30 P.M., and admission is free. Learn more about the Postal Inspection Service at the Smithsonian's Web site at www.postalmuseum.si.edu/inspectors/index.html.

USPS participates in White House alternate-fuel vehicles event

The Postal Service has a long history of exploring cleaner, more energy-efficient ways to deliver the nation's mail. It boasts the nation's largest fleet of alternate-fuel vehicles — some 38,000 cars, trucks and minivans — powered by electricity, compressed natural gas, liquid propane gas, ethanol (E85), biodiesel fuel and hydrogen fuel cells.

USPS Energy Initiatives Executive Director Julie Rios explains the features of the Postal Service's electric vehicles to President Bush.

Recently, USPS participated in a White House event promoting alternate-fuel technology, demonstrating the technology behind two zero-emissions mail-delivery vehicles — a hydrogen fuel-cell minivan and an electric two-ton truck.

The Postal Service has been collecting and analyzing data from a General Motors HydroGen3 hydrogen fuel-cell minivan delivering mail in the Washington, DC, area since 2005 and one delivering in Irvine, CA, since September

2006. Hydrogen fuel-cell vehicles emit just pure water and are twice as energy efficient as internal combustion engine vehicles.

Thirty two-ton zero-emissions electric vehicles have been delivering mail in New York City since 2004. The CitiVans are powered by a series of lead-acid batteries constructed from sealed gel modules that don't require water replacement or other maintenance during their service life.

Postal Service engineers say that both the HydroGen3 minivans and the CitiVans have been holding up well to the rigors of stop-and-go driving and hot and cold weather conditions.

Intelligent Mail barcodes expand to Flat Mail in May

USPS Intelligent Mail and Address Quality Vice President Charlie Bravo announced recently that beginning May 1, the Intelligent Mail barcode — formerly called the 4-State Customer barcode — will be available for flat mail and that mailers will receive the automation discount for using it.

Mailers can receive the discount for using the Intelligent Mail barcode alone to sort all classes of mail or with select mail classes using Intelligent Mail services OneCode Confirm and OneCode ACS (Address Change Service).

OneCode Confirm will be available for flats on First-Class Mail, Standard Mail and Periodicals. OneCode ACS will be available for First-Class Mail and Periodicals flats. OneCode ACS for Standard Mail flats will be available in the fall.

"The Intelligent Mail process is fully automated," said Bravo. "We're looking forward to having everyone on board by 2009."

Program available to help employees, families

Did you know April is Employee Assistance Program (EAP) month? It's true. And EAP wants employees to know that help is only a phone call away. The program offers free, voluntary and confidential assistance to employees and their family members with virtually any personal, job or family problem.

All you need to do is make a call. Professional counselors are available 24 hours a day, seven days a week by calling 800-EAP-4-You. EAP's Web site, www.EAP4You.com, provides valuable health and wellness information, self-help tools and more. TTY is available at 877-492-7341.

The sooner you seek help, the sooner your problems can be addressed. So don't wait. Make the call!

Forever Stamp unveiled

You've heard about it. You've read about it. Now see it for the first time. It's the Postal Service's newest consumer initiative — the *Forever Stamp*, unveiled recently at the National Postal Forum in Washington, DC.

Unveiling the *Forever Stamp* at the National Postal Forum are, from left, Postmaster General Jack Potter, USPS Board of Governors Chairman James C. Miller III, Postal Regulatory Commission (PRC) member Ruth Goldway and PRC Chairman Dan Blair.

Featuring the Liberty Bell image and the word "forever," the *Forever Stamp* will go on sale nationwide April 12 at the 41-cent First-Class Mail, 1-ounce letter price, available at retail counters in booklets of 20 for \$8.20 as well as online at www.usps.com/shop, by mail, or by phone at 800-STAMP 24 (800-782-6724). This will increase convenience for consumers by avoiding the "last minute rush" to purchase stamps when new prices are implemented.

Beginning May 14, the *Forever Stamp* will also be available in sheetlets of 18 for \$7.38 at Automated Postal Centers (APCs) and at select automated teller machines (ATMs).

Research has shown that customers prefer the *Forever Stamp* for the convenience it offers by easing the transition for mailing letters when prices change. It will reduce the need to buy 1- and 2-cent stamps.

The *Forever Stamp* will be valid for mailing any future 1-ounce single-piece First-Class Mail letter, no matter what the price may be at the time of mailing — without the addition of extra postage.

Overview

On May 14, 2007, the purchase price for the *Breast Cancer Research* semipostal stamp will be raised to 55 cents. The design of the stamp will not change.

All sales of the *Breast Cancer Research* semipostal stamp are still to be reported in AIC 084.

The following information provides historical background on the stamp, Q&As to help you with customer inquiries, and instructions on how the revaluing process should take place at all retail units.

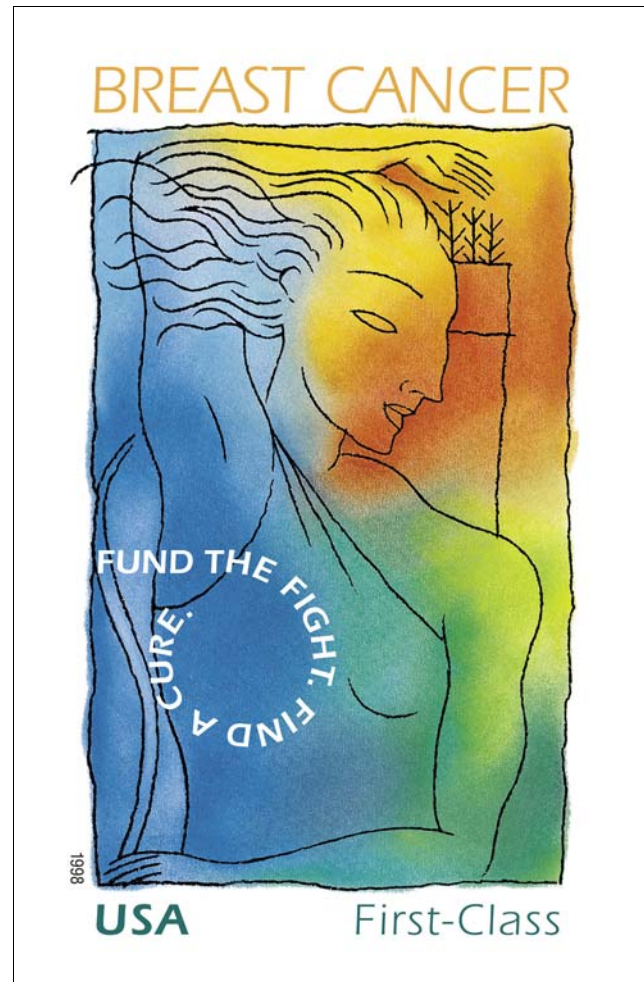

Background

The *Breast Cancer Research* semipostal stamp was issued July 29, 1998, as a result of legislation directing the Postal Service™ to issue a semipostal stamp to raise funds for breast cancer research.

Semipostal stamps are stamps sold for a price that exceeds the postage value of the stamp. The difference between the price and postage value (also known as the “differential”) less an offset for reasonable Postal Service costs, as determined by the Postal Service, is contributed to a specific cause. The difference between the purchase price and the First-Class Mail® nonautomation single-piece first-ounce letter rate in effect at the time of purchase constitutes a contribution to breast cancer research and cannot be used to pay postage. Semipostal stamps are offered for sale for a limited time, as provided by law.

To date, the *Breast Cancer Research* semipostal stamp has raised more than \$53 million for research. Funds (net of reasonable Postal Service costs) raised in connection with the *Breast Cancer Research* semipostal stamp are transferred to the National Institutes of Health (70 percent) and to the medical research program of the Department of Defense (30 percent).

Congress has amended the *Breast Cancer Research* semipostal stamp legislation several times. The latest revision took place in November 2005, extending the stamp’s sales period through December 2007.

Questions and Answers

Q. Why is the price of the Breast Cancer Research semi-postal stamp being increased to 55 cents on May 14?

A. The law creating the stamp states that the price of the Breast Cancer Research semipostal stamp must meet certain requirements. The Governors of the Postal Service determined to raise the price in order to meet the requirements of the law creating the stamp and in connection with the increase in the First-Class Mail nonautomation single-piece first-ounce letter rate increase.

Q. What if a customer bought the stamp when the First-Class Mail rate was 39 cents and uses the stamp now, when the rate is 41 cents, or even later when rates go up?

A. The postage value of each semipostal stamp is the First-Class Mail nonautomation single-piece first-ounce letter rate in DMM Section 133.1.5, *Rates for Letters, Flats, and Parcels*, that is in effect at the time of purchase. Additional postage must be affixed to pieces weighing in excess of 1 ounce, pieces subject to the nonmachinable surcharge, or pieces for which extra services have been elected. The postage value of semipostal stamps purchased before any subsequent change in the First-Class Mail nonautomation single-piece first-ounce letter rate is unaffected by

any subsequent change in that rate. Customers are welcome to use any *Breast Cancer Research* semi-postal stamps they purchased when lower rates were in effect, but if stamps were purchased before the rate change, they should affix additional postage to reach the appropriate rate based on the size and weight of their mailpiece. There is, however, no easy way to determine when these stamps were purchased, so we assume the stamps are being used properly for the First-Class Mail nonautomation single-piece first-ounce letter rate in effect at the time the stamp is used for postage. Consequently, pieces bearing the *Breast Cancer Research* semipostal stamp should not be treated as shortpaid.

Q. How long will the Breast Cancer Research semipostal stamp be on sale?

A. The *Breast Cancer Research* semipostal stamp will be on sale through December 31, 2007. The end date was established by recent legislation. The Postal Service is very proud of the fact that the stamp has raised more than \$53 million for research.

Retail Instructions

To increase the value of these stamps, stock custodians, retail associates, and contractors must count the number of *Breast Cancer Research* semipostal stamps in their stamp credits and multiply the total number of *Breast Cancer Research* semipostal stamps by 10 cents to compute the dollar value of the increase in accountability. The following instructions are being issued to revalue the supply of the *Breast Cancer Research* semipostal stamps.

IRT Offices

Individual Accountabilities. Sales and services associates (SSAs) with *Breast Cancer Research* semipostal stamps in their inventory must increase their accountability using the following instructions:

1. *Stamp Credits.* SSAs and contractors must multiply the number of *Breast Cancer Research* semipostal stamps on hand by 10 cents and record the computation on PS Form 17, *Stamp Requisition/Stamp Return*. The total from PS Form 17 must be entered in AIC 844, *Stock Increase-Revaluation*, on the clerk disk.

2. *Closeout Instructions.* When all clerk disks are consolidated, the total revaluation for the unit will be the total amount in AIC 844 on the Unit 1412, *Daily Financial Report*, for standard field accounting procedures (SFAP) units. In main stock non-SFAP offices, the revaluation amount in AIC 844 will roll to AIC 171, *Postage Stock Revaluation-Increase*, on the Daily Financial Statement and will increase AIC 805, *Postage Stock Inventory*.

Main Stock/Unit Reserve. Offices with *Breast Cancer Research* semipostal stamps in main stock/unit reserve inventory must increase their accountability using the following instructions:

1. Issue to retail clerks all 45-cent *Breast Cancer Research* semipostal stamps in main stock/unit reserve.
2. Clerks receive stock by recording to AIC 841, *Stock Received*, at 45 cents per stamp.
3. Clerks revalue by following the previously stated revaluation instructions.

4. The item number for *Breast Cancer Research* semi-postal stamp from stamp stock inventory (at the old price) can be deleted after the next New Day is performed.
5. Add item number for *Breast Cancer Research* semi-postal stamp to stamp stock inventory at the new price of 55 cents.
6. Clerks prepare PS Form 17 for returning stock and enter value of *Breast Cancer Research* semipostal stamp to be returned to main stock/unit reserve inventory at the new price of 55 cents.
7. Clerks make entry to AIC 848, *Stamps Return*.
8. Enter to main stock/unit reserve inventory at new price.

Non-IRT/Non-POS ONE Offices

1. *Stamp Credits*. SSAs and contractors must multiply the number of *Breast Cancer Research* semipostal stamps on hand by 10 cents and record the computation on PS Form 17, *Stamp Requisition/Stamp Return*. The total from PS Form 17 must be entered to AIC 844, *Stock Increase-Revaluation*, on Clerk 1412.
2. *Main Stock/Unit Reserve Inventory*.
 - a. Multiply the number of *Breast Cancer Research* semipostal stamps on hand by 10 cents and record the computation on PS Form 17.
 - b. Enter amount on PS Form 3958, *Main Stock Transaction Record*, on line 3 (blank) and write in "Revaluation-Stock Increase."

Main Stock Units. Enter the total from all PS Forms 17 (for SSAs and main stock inventory) for revalued *Breast Cancer Research* semipostal stamps to PS Form 3959, *Daily Recap-Stamp Stock Transactions*, on line 3 (blank) and write in "Revaluation-Stock Increase." In the accountbook, make a write-in entry to AIC 171, *Postage Stock Revaluation-Increase*, for the same amount. This is offset by an increase to AIC 805, *Postage Stock Inventory*, in the analysis section of the accountbook.

Reserve Stock Units. Add the total from PS Form 17 (for reserve stock inventory) for revalued *Breast Cancer Research* semipostal stamps to Unit 1412, AIC 844, *Stock Increase-Revaluation*. Add all PS Forms 17 (for SSAs and unit reserve inventory) and verify with Unit 1412, AIC 844. Support entry with PS Forms 17 and copy of PS Form 3958. These increases in accountability must be reported in the accountbook.

POS ONE Offices

A message display will state that the stock unit contains items pending revaluation. The revaluation process must be completed by (1) one of the SSAs assigned to the multi-

service role working from the retail floor stock under segmented inventory accountability and (2) SSAs with assigned stamp credits.

After physically counting the number of revalued items from the floor stock inventory or stamp stock, the system user must follow these steps to complete the process:

1. Press **[Clerk Services\Back Office]**.
2. Press **<Money and Accounts>**.
3. Press **<Stock Revaluation>**.
4. Press **<Select All>**.

Note: Red check marks appear on all the items in the notebook area pick list. The user can also select one item at a time by pressing the select item DynaKey.

5. Press **<Accept>**.
6. Press **<Continue>**.

Note: The system will print a Stock Revaluation count-sheet for all items that were previously checked. Use this printout to record the physical count.

7. Key in the quantity counted for each item and press **[Enter]**.
8. Press **<Continue>**. If the wrong quantity was entered, press **<Change Quantity>** to return to the item list and make corrections.
9. Press **<Continue>**.
10. Type in the First Name, Last Name, and Employee ID.
11. Press **<Continue>**. A summary view will be displayed of the change done to the user's accountability.
12. Press **<Accept>** to finish.

Unit Reserve Stock Custodians:

1. Log on as Stock Custodian.
2. Press **<Non-Retail Roles>**.
3. Press **<Other Activities>**.
4. Press **<Unit Stock Revaluation>**.
5. Press **<Select All>**.

Note: Red check marks appear on all the items in the notebook area pick list. The user can also select one item at a time by pressing the select item DynaKey.

6. Press **<Accept>**.
7. Press **<Continue>**.

Note: The system will print a Stock Revaluation count-sheet for all items that were previously checked. Use this printout to record the physical count.

8. Key in the quantity counted for each item and press **[Enter]**.

9. Press <Continue>. If the wrong quantity was entered, press <Change Quantity> to return to the item list and make corrections.
10. Press <Continue>.
11. Type in the First Name, Last Name, and Employee ID.
12. Press <Continue>. A summary view will be displayed of the change done to the user's accountability.
13. Press <Accept> to finish.

Procedures for Stamp Distribution Offices, Stamp Services Centers, and Users of the Stamp Services System for Revaluating Breast Cancer Research Semipostal Stamps

Breast Cancer Research Semipostal Stamp Items Affected (Increase)

Item Number	Description	Old Price	New Price	Amount of Increase
553000	Breast Cancer Research Singles	\$0.45	\$0.55	\$0.10
553015	Breast Cancer Research Pane	9.00	11.00	2.00
367200	Breast Cancer Research 10 Pack	4.50	5.50	1.00

The value of the *Breast Cancer Research* semipostal stamp will increase from 45 cents to 55 cents, effective May 14, 2007. The master inventories of stamp services system (SSS) will be updated automatically by Stamp Distribution Headquarters to reflect the new selling price starting at 9:00 A.M. Eastern Time (ET) on May 14, 2007.

- To facilitate this update and to eliminate in-transit shipments, stamp distribution offices (SDOs) and stamp services centers (SSCs) **must not** process PS Form 17, *Stamp Requisition/Stamp Return*, for the *Breast Cancer Research* semipostal stamp before 9:00 A.M. ET, from May 5 through May 14, 2007.

Additionally, SDOs and SSCs **must not** logon to the SSS program before 9:00 A.M. ET or after close of business, from May 12 through May 14, 2007.

When the inventory system is updated, the closing balance on PS Form 3958, *Unit Reserve Stamp Stock Transaction Record*, for the date of May 12 will not match the opening balance on May 14, 2007. The difference should equal the total revaluation amount.

Stamp distribution supervisors at all facilities processing the *Breast Cancer Research* semipostal stamp should perform the following on May 12 or on their last day of business prior to May 14, 2007.

- Total the quantities of *Breast Cancer Research* semipostal stamps in inventory.
- Multiply by the increase amount (see chart above).
- Enter the results on PS Form 17.
- Write the difference on the overage line of PS Form 3958 (outside the postage line) as stock revaluation/increase.
- Maintain PS Form 3958 and PS Form 17 at the SDO or SSC.

Procedures for SSS System Analyst Programmer, Eagan MN

- The SSS system analyst programmer will provide a file of the net differences by line and by warehouse to St. Louis Accounting after the system is updated.
- St. Louis will use the file to update the stock ledger entries.

Vending Package Procedures for Self-Service Equipment

The price of the *Breast Cancer Research* semipostal stamp vending packages (Item 367200) (10 stamps) will increase to \$5.50 from \$4.50 on May 14. The Postal Service™ is not allowed to sell a product at a price higher than what is printed on the package. Therefore, offices must replace the labels on all vending packages. The price is not printed on the new label. Place the new label on top of the old label on the glassine envelope.

The new pricing labels were shipped directly to Stamp Distribution Offices (SDOs) to fill orders. Each label sheet has 25 labels. Offices with *Breast Cancer Research* semipostal stamp vending stock must order as many sheets as necessary to re-label all of their vending stock.

You may re-price the packages *immediately* because the vending machines list the price of the package. Re-labeled stock will be sold for \$4.50 through May 13 and \$5.50 beginning May 14. Offices must replace the product identifier for the vending machine on May 14, and reset the price

in the vending machine. The product identifier can be found on the following Web site: <http://eagnmmsg10d:8082/prodid/main.jsp>.

SDOs will ship labels with every new order of *Breast Cancer Research* semipostal stamp vending packages until the old stock in the SDO is exhausted. If needed, additional labels are stocked at the accountable paper depositories (APDs).

Follow the instructions in your *POS ONE Procedures Guide* and the instructions for revaluing the vending stock inventory/credit available in the article "Stamp Stock Revaluation Instructions" in *Postal Bulletin* 22203A (4-6-07, pages 11–13).

Procedures for Postal Store Retail Packaged Stamps

Breast Cancer Research Semipostal Packages (Postal Stores)

The *Breast Cancer Research* semipostal packaged stamps Item No. 553015 (20 stamps) have a price of \$9.00 on the label. On May 14, 2007, the price will increase to \$11.00. The Postal Service™ is not permitted to sell a product at a price higher than what is printed on the packaging. Therefore, all of the slat wall packaged stamps will have to be re-labeled, with the correct price. The new label must be placed on top of the old label on the reverse side of the packet.

New labels are being shipped directly to stamp distribution offices (SDOs). They are expected to be in SDOs by mid-April. There are 25 labels per sheet. Offices with *Breast Cancer Research* semipostal stamp slat wall packets must order the number of sheets necessary to re-label all packets. Once completed, each office must report to their district retail office that all *Breast Cancer Research* semipostal stamp packets have been re-labeled.

SDOs will ship the new labels with every reorder of *Breast Cancer Research* semipostal stamp slat wall packets (Item No. 553015). Additional labels are available at the accountable paper depositories, if needed. A sample of the new label is located below.

Breast Cancer Research semipostal stamp slat wall packets must be re-labeled by May 14, 2007, the date when the repriced stamps will be initially sold.

Follow retail instructions for revaluing *Breast Cancer Research* semipostal stamps.

Service Talk: Breast Cancer Research Semipostal Stamp

On May 14, 2007, along with the new prices for domestic and international mail, we will raise the price for the *Breast Cancer Research* semipostal stamp from 45 cents to 55 cents. The Governors of the Postal Service™ determined to raise the price in order to meet the requirements of the law creating the stamp and in connection with the increase in the First-Class® nonautomation single-piece first-ounce letter rate increase. The design of the stamp will not change, and the postage value of the stamp will continue to be the First-Class single-piece first-ounce letter rate. It is important that you continue to remain diligent in accurately reporting sales of semipostal stamps.

As a reminder:

- The Postal Service must track the exact number of stamps sold. To comply with this requirement, the *Breast Cancer Research* semipostal stamp must be sold for 55 cents under AIC 084.
- The stamp may be used for postage at the First-Class Mail single-piece 1-ounce letter rate in effect at the time of purchase. Customers should be reminded that the stamp is good for 41 cents postage, not 55 cents.
- The tax-deductible contribution associated with each stamp is 14 cents. This amount is the differential between the First-Class single-piece first-ounce letter rate and the 55 cent stamp price and will be transferred (net of the Postal Service's reasonable costs) to the Medical Research Program of the Department of Defense and the National Institutes of Health for breast cancer research.
- Each person responsible for ordering and maintaining stamp stock must make certain their office has a supply of this stamp and that existing stamp stock is revalued with the current price.
- If customers indicate they want to purchase the *Breast Cancer Research* semipostal stamp but do not want to make a donation to breast cancer research, gently remind them that the Postal Service must, by law, charge the extra amount. Then offer your customer an alternative stamp to purchase.
- Customers interested in donating to breast cancer research without buying the stamp can be told they can do so through local charitable organizations.
- All customers should be given a receipt. POS ONE and IRT receipts identify *Breast Cancer Research* semipostal stamps. Other retail offices should provide PS Form 1096, *Cash Receipt*.
- The self-adhesive *Breast Cancer Research* semipostal stamp can be sold individually. Each pane has been especially die-cut for that purpose.

The *Breast Cancer Research* semipostal stamp will be on sale through December 31, 2007. The end date was established by recent legislation. The Postal Service is very proud of the fact that the stamp has raised more than \$53 million for research.

DMM Clarification: New Rates and Preparation Standards for Periodicals Mail

We are revising the *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®), to implement the pricing changes and related mailing standards revisions for all classes of mail. The new rates for all classes of mail, except for Periodicals mail, are effective May 14, 2007. For Periodicals mail, the new rates and all new preparation requirements are effective July 15, 2007. This delayed implementation for Periodicals mail includes the new scheme sorting and full-tray requirements, and the new 100-pound pallet minimum for certain destination-entered pallets.

For more information about the pricing change, please refer to the April 6, 2007, special *Postal Bulletin* or to www.usps.com/ratecase. We will publish more information about the Periodicals pricing change, including all of the new rates and mailing standards, in an upcoming *Postal Bulletin*.

DMM Revision: Realignment of ZIP Codes 448 and 449: Revision to Destination Entry Exhibits

Effective with changes in mail processing operations announced on page 12 of this *Postal Bulletin*, destination bulk mail center (DBMC) mailings to 3-digit ZIP Code prefixes 448 and 449 will shift from the Cincinnati, OH, bulk mail center (BMC) to the Pittsburgh, PA, BMC.

These changes are incorporated in labeling lists L009, L601, L603, L604, and L605. Consistent with this change, we are revising *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM)*[®] Exhibits 246, 346, 366, 446, 456, and 466.

We encourage mailers to make the related changes to their mailings immediately. DBMC mailings entered on and after June 24, 2007, must include this change.

DMM Revision: Delivery Confirmation With Standard Mail Not Flat-Machinable Pieces

Effective with the pricing change on May 14, 2007, we are revising the *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) to offer Delivery Confirmation™ service for pieces mailed at the new Not Flat-Machinable (NFM) Standard Mail rates.

NFM pieces are rigid or nonuniformly thick flat-size pieces and large pieces (15 inches to 15-3/4 inches long or 3/4 inch to 1-1/4 inches thick) that we do not process on our primary flats-sorting equipment and usually handle and deliver as parcels. This new subcategory provides mailers a lower-than-parcel rate option for pieces that do not meet our revised standards for flats. For more information about NFMs and the pricing change, please refer to the April 6, 2007, special *Postal Bulletin* or to www.usps.com/ratecase.

DMM Revision: Electronic Verification System

Effective May 14, 2007, 402.4.3, 466.1.2, 503.4.3.5, 609.1.3, 609.1.5, 609.3.1, 705.2.4.3, 705.2.4.4, 705.2.9.2, 705.2.9.3, 705.2.9.4, 705.2.9.8, 705.6.3.2, and 705.6.3.4 of the *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM[®]) are revised to reflect mailing requirements resulting from the R2006-1 rate case that affect the Electronic Verification System (eVS) for manifesting parcel mail.

I. Required eVS Participation Date Delayed

The Postal Service[™] is rescinding the original mandate to require eVS by August 1, 2007, for all permit imprint Parcel Select[®] mailings, as well as all commingled permit imprint parcel mailings containing Parcel Select under DMM 705.6.0 or 705.7.0. The announcement of the original mandate was first published July 10, 2006, in the *Federal Register* (71 FR 38966–38978).

The Postal Service is delaying the required use of eVS because of the large number of format and coding changes required by the R2006-1 rate case and which must be implemented on May 14, 2007, and because of the addition of several new subclasses of mail that will become available under eVS.

Current eVS mailers will be required to meet all new rate and classification changes on May 14, 2007. These mailers have already developed the fundamental requirements and processes for eVS and only have to revise some file formats and rate coding as well as update appropriate rate tables used for calculating the correct postage rates. Other aspects of eVS remain the same.

Mailers who are currently not eVS mailers but planning to participate in the eVS program after the rate case have requested additional time to meet these new requirements and to create the electronic infrastructure necessary to support and test eVS with its greater complexity. These mailers do not have experience with eVS requirements and processes and are already changing their systems for the traditional forms of manifesting to comply with the new rates and classifications. To convert to eVS at the same time would create unnecessary burdens for these non-eVS mailers and adversely affect their mailing operations. As a result, the Postal Service is re-evaluating a suitable date for new mailer implementation of eVS. Once the Postal Service determines an appropriate date, we will publish the new date in the *Federal Register* and the *Postal Bulletin*.

II. eVS Benefits

The Postal Service and the parcel shipping industry have worked together to develop eVS into a new manifesting model that simplifies verification, acceptance, and induction of parcel mailings. Under eVS, mailers barcode and manifest all parcels before transmitting the electronic manifest files to the Postal Service.

The eVS manifest file structure, similar to the traditional postage payment manifests, lists all parcels in a mailing and includes pertinent information that supports postage and fee payment for each parcel. Under eVS, the Postal Service generally no longer verifies parcel mailings at a mailer's plant, and the mailer is no longer required to create paper documentation for induction activities.

eVS mailers manifest the parcels, transmit their electronic files to the Postal Service, schedule appointments through the Facility Access and Shipment Tracking (FAST) system, and present the parcels at the desired destination entry facilities according to their FAST appointments.

The Postal Service draws random statistical samples of mailings at the appropriate Postal Service plants and delivery units, and electronically compares the sampling data against the transmitted electronic manifest data in order to verify the accuracy of the mailing. Electronic reports provide information on the discrepancies noted. These reports are available via the eVS Web site and can facilitate an automated reconciliation process.

Parcel mailers can benefit from using eVS for the following operational and financial reasons:

- **Flexibility.** On-site Postal Service verification schedules no longer constrain the management of a mailer's internal workflows, thereby allowing more rapid responses to changes in production, order fulfillment, and customer business needs. Under eVS, most verification and sampling activities now occur off-site at Postal Service destination entry facilities such as bulk mail centers and delivery units rather than at origin sites such as the mailer's plant or a Postal Service business mail entry unit serving that plant.
- **Precision.** Barcoding each parcel ensures greater precision for the accounting and postage payment processes.
- **Efficiency.** Transmitting specifically prepared electronic manifest files eliminates the need for paper documentation, significantly improves the efficiency of operations and reporting, and provides greater flexibility for updating information. eVS is a paperless system. All documentation is prepared and received electronically, and clearance documents are no longer needed.
- **Cash Flow.** Transmitting electronic files on the day when the mailer deposits the mail at the destination facilities allows the mailer to pay postage closer to the actual time that the mail is entered into the mailstream.
- **Information.** Having access to a wealth of online reports provides up-to-date mailing and transaction

information. This information (accessible 24 hours a day, 7 days a week) facilitates convenient information sharing between the Postal Service and eVS mailers.

III. eVS Requirements

eVS has two fundamental technical requirements that provide the necessary data and configuration for successful processing. The requirements are as follows:

- *Electronic Manifest Files.* The creation and successful transmission of electronic manifest files to the Postal Service for postage payment is required. The electronic file format and data elements used for these manifest files are in Postal Service Publication 205, *Electronic Verification System Technical Guide*. The eVS electronic manifest files replace today's hardcopy manifest, as well as the associated hardcopy postage statement and, for drop shipments, PS Form 8125, *Plant-Verified Drop Shipment (PVDS) Verification and Clearance*.
- *Parcel Barcoding.* The application of a unique barcode to each parcel is required. eVS uses two standardized barcode formats: a Confirmation Services barcode (that is, the barcode used for Delivery Confirmation™ and Signature Confirmation™) or a parcel barcode not using Confirmation Services. The barcode represents the 22-digit package identification code (PIC) recorded in each parcel detail record in the eVS manifest file, using the five data elements as shown in the following table.

Description	Number of Digits
Application Identifier	2
Service Type Code	2
DUNS Number or Customer ID	9
Sequential Package ID	8
MOD 10 Check Digit	1
Total Number of Digits	22

Publication 205 outlines the technical requirements for each parcel barcode, as follows:

- *Barcode Format.* The barcode must be an authorized UCC/EAN Code 128 barcode meeting the technical requirements in Publication 205.
- *Barcode Uniqueness.* Each barcode must be unique for 12 consecutive months. (The Postal Service is developing requirements to shorten this period to 6 consecutive months.)
- *Mailer Identification.* The DUNS number or customer ID used in the barcode must be unique to the parcel shipper or the parcel shipper's client.

Because Delivery Confirmation service does not require any additional fees for Parcel Select items, mailers are encouraged to apply a Delivery Confirmation service barcode to all Parcel Select pieces. Effective May 14, 2007, Delivery Confirmation service is available for \$0.18 when

using the electronic option for other Package Services and Standard Mail® parcels. Mailers may choose to apply the alternate parcel barcode, as described in Publication 205, to avoid paying this fee. However, no delivery information is available if this barcode used.

IV. eVS Manifest Mailing Operations

The principal eVS manifest mailing operations for the eVS mailer and the Postal Service occur in the following sequence:

1. *Transmitting Electronic Manifest Files.* On or before the actual date of deposit (also called the date of mailing), the mailer transmits electronic manifests to the Postal Service detailing all eVS parcels to be deposited into the mailstream.
2. *Generating Postage Statements.* eVS generates postage statements using the information contained in the mailer's transmitted manifest files and submits these postage statements directly to *PostalOne!*®
3. *Paying Postage and Fees.* From the information on the generated postage statements, postage and any fees for Extra Services are withdrawn from the mailer's *PostalOne!* postage payment account. Account information, including current balances and transactions, is updated on the eVS Web site. The eVS mailer can access the password-protected Web pages to view postage statements and associated funds debited from the account.
4. *Transporting and Depositing Parcels.* The eVS mailer makes appointments through the Postal Service's FAST system and then the mailer transports and deposits the parcels at the appropriate Postal Service destination entry facility, based on these entry rates available for the mail class claimed:
 - a. Destination bulk mail center.
 - b. Destination sectional center facility.
 - c. Destination delivery unit.
5. *Sampling Deposited Parcels.* As the eVS mailer deposits parcels at destination entry facilities, the Postal Service randomly samples the parcels using scanning devices and electronic scales and uploads the collected sampling data to eVS. The sampling data and additional data generated by the sampling software are matched to the data manifested by the mailer. The data is then compared to verify whether the manifested postage for the sampled parcels has been calculated correctly, based on the rate determinants and physical characteristics of the parcels. The comparison results are recorded in the eVS database and used to calculate the postage adjustment factor (PAF) described in the next section. Sampling data

collected by the Postal Service includes the following:

- a. Barcode information representing the PIC, class marking, and mailer's name or abbreviation in the permit imprint indicia on the mailing label.
 - b. Facility type (bulk mail center, auxiliary service facility, sectional center facility, destination delivery unit, or none), ZIP Code™ of service area of facility type, and destination ZIP Code on the mailing label.
 - c. Size (dimensions) of the parcel, if warranted by an unusual size that could result in a balloon rate, oversize rate, or dimensional-weight pricing.
 - d. Weight of the parcel.
 - e. Machinability of the parcel.
 - f. Any extra service such as Delivery Confirmation.
6. *Determining Unmanifested and Mis-Shipped DDU Parcels.* When barcodes on the mailing labels are scanned during normal processing and acceptance and delivery operations (for example, delivery scans for parcels prepared with Delivery Confirmation), the barcode data is transmitted from the Product Tracking System to the eVS database to determine whether the parcels are unmanifested or destination delivery unit (DDU) mis-shipped. Unmanifested parcels are parcels that are scanned by the Postal Service but not included on the mailer's manifest. Mis-shipped DDU parcels are parcels deposited by the eVS mailer at the incorrect destination delivery unit entry facility and transported by the Postal Service to the correct entry facility.
7. *Assessing Additional Postage.* As described in the next section, the mailer is assessed postage for discrepancies found in the electronic manifests for any of the following:
- a. Incorrectly rated parcels.
 - b. Unmanifested parcels.
 - c. Mis-shipped DDU parcels.

V. Postage Adjustments

eVS collects postage daily based on the electronic manifests received that day from mailers. For calculating postage adjustments in eVS, a mailing period is defined as a calendar month. A reconciliation period is defined as the 20 days immediately following the mailing period. In addition to the daily collection of postage based on the manifests, postage is calculated and assessed each month for the following types of errors:

- *Incorrectly Rated Parcels.* If total postage paid for the parcels on the manifests received for a mailing period is understated by more than 1.5% (based on

sampling), a postage adjustment factor (PAF) is calculated by dividing the total postage for the sampled parcels by the postage claimed for the sampled parcels on the mailer's manifests. If the PAF exceeds 1.015 (that is, the percentage of underpayment is greater than 1.5%), then the manifested postage amount for the entire mailing period is multiplied by the PAF minus 1 (for example, 1.02 -1) to determine the additional postage due.

- *Unmanifested Parcels.* If a parcel is not identified on a manifest, the mailer ID in the barcode is used to establish accountability for payment of postage. Postage for unmanifested parcels is based on data collected on these parcels at Postal Service facilities. The eVS database receives a weekly update of unmanifested parcels from the Product Tracking System. The mailer is allowed to reconcile unmanifested parcels by transmitting electronic manifest files for the unmanifested parcels during the mailing period and no later than 10 days after the close of the mailing period. Any unmanifested parcel receiving a manifest record prior to the 11th day of the subsequent month will be removed from this assessment and charged the appropriate postage. Unmanifested parcels do not become part of the postage adjustment factor calculation.
- *Mis-Shipped DDU Parcels.* For destination delivery unit (DDU) parcels dropped at an incorrect entry location, the eVS mailer is charged the difference between the manifested postage and the appropriate single-piece rate for the parcel. In the case of Standard Mail parcels, the mailer is charged the difference between the manifested postage and the appropriate First-Class Mail® single-piece rate or the unzoned 1-pound Priority Mail® rate for parcels weighing more than 13 ounces. For destination bulk mail center (DBMC) and destination sectional center facility (DSCF) parcels dropped at an incorrect entry location, any sampled pieces from such mis-shipments become part of the postage adjustment factor calculation.

The Postal Service will work with mailers required to pay postage adjustments for incorrectly rated parcels, unmanifested parcels, and mis-shipped DDU parcels to determine the causes that led to the adjustments and to review quality control procedures. It is important that the mailer maintain such procedures to ensure accountability of parcels entered under the eVS manifest program.

VI. Postage Payment Schedule

Under eVS, the collection of postage and any postage adjustment for postage due occurs as follows:

- **Postage Payment for Manifests.** The mailer's *PostalOne!* postage payment account is debited on a daily basis. Payment for each manifest is debited on the day the manifest is submitted.
- **Postage Payment for Adjustments.** On the 21st day of the month following the monthly mailing period, defined as a calendar month, the mailer's *PostalOne!* postage payment account may be further debited for (1) postage adjustments on the manifested postage if the PAF exceeds 1.015, (2) postage for unmanifested parcels, and (3) additional postage for misshipped DDU parcels. These additional postage amounts are processed on the 21st day of the month following the mailing period to allow mailers time to investigate and reconcile discrepancies. Between the end of a mailing period and the 21st day of the following month, eVS provides two consecutive 10-day review periods, as follows:
 - **Mailer Investigation Period.** The first 10-day period is the mailer review period, which begins immediately after the end of the monthly mailing period and extends through the 10th day of the month following the mailing period. During the 10-day review period, the mailer may submit manifest files to reconcile and pay for unmanifested parcels.
 - **Joint Mailer/Postal Service Investigation Period.** The second 10-day period is a joint review period between the mailer and the Postal Service and begins immediately following the 10-day mailer review period and extends through the 20th day of the month following the mailing period. During this

period, at the mailer's request, the mailer may jointly review the sampling data with the Postal Service to dispute any data indicating a postage adjustment is due. Appeals and refund requests must be submitted in writing to the Business Mailer Support manager within 30 days following the end of the joint review period.

Schedule of Postage Payments and Adjustments

Payment or Adjustment	When Account Debited
Manifest postage payment	Day transmitted manifest received
Manifest accuracy adjustment (postage adjustment factor)	On 21st day of next month
Unmanifested parcels adjustment	On 21st day of next month
Mis-shipped DDU parcels adjustment	On 21st day of next month

VII. eVS Parcel Subclasses and Rate Categories

Currently only the classes, subclasses, rate categories, and processing categories shown in the following table are available for eVS. The Postal Service plans to include the additional classes of mail and rate categories indicated in the lower part of the table by the dates shown.

A. First-Class Mail and Priority Mail

Beginning July 1, 2007, First-Class Mail® and Priority Mail® will be offered only on a test basis. Both subclasses are handled in a preferential network and will require alternative sampling procedures. Current eVS-approved mailers interested in testing First-Class Mail or Priority Mail must send a written request to:

[Revise 2.4.3c to read as follows:]

- c. For eVS mailings prepared under 705.2.9, USPS charges eVS mailers for postage due for any underpaid, unmanifested, or mis-shipped destination delivery unit (DDU) parcels at the end of the review period following the monthly mailing period as follows:
 - 1. *Underpaid Parcels.* If the total postage of parcels sampled during the mailing period indicates that the mailer has underpaid postage by more than 1.5% when compared with the corresponding

parcel records in the mailer's manifest files, USPS determines additional postage due based on the total postage already paid for the mailing month using the procedures in Publication 205.

- 2. *Unmanifested Parcels.* USPS charges eVS mailers for parcels not listed in the mailer's manifest files but identified by USPS processing scans or acceptance and delivery scans as being mailed. USPS determines the postage charges using sampling data and the procedures in Publication 205.

- 3. *Mis-Shipped DDU Parcels.* USPS charges eVS mailers the appropriate single-piece rate less the original rate paid for parcels identified by acceptance scans to be deposited at incorrect destination delivery units. USPS transports these mis-shipped parcels to the correct destination delivery units. USPS determines the additional postage using scanning data and the procedures in Publication 205. Parcels mis-shipped at destination BMCs or destination SCFs are handled through parcel sampling and are treated as underpaid parcels.

2.9.2 Availability

[Revise 2.9.2 to read as follows:]

eVS may be used only for parcel mail paid with a permit imprint and only for the following classes and subclasses of mail, rate categories, and mail processing categories, except for those rates or processing categories as noted:

- a. *First-Class Mail.* Single-piece rate and presorted rates; machinable and nonmachinable parcel processing categories. Field testing for First-Class Mail rates available effective July 1, 2007.
- b. *Priority Mail.* Single-piece rate, flat-rate envelope, and flat-rate box; all parcel processing categories.

Field testing for Priority Mail rates available effective July 1, 2007.

- c. *Regular Standard Mail.* Presorted rates, destination bulk mail center (DBMC) rates, destination sectional center facility (DSCF) rates, and destination delivery unit (DDU) rates; machinable parcels, irregular parcels, and Not Flat-Machinable pieces. Field testing for irregular presorted rates and Not Flat-Machinable rates available after May 14, 2007.
- d. *Nonprofit Regular Standard Mail.* Presorted rates, DBMC rates, DSCF rates, and DDU rates; machinable parcels, irregular parcels, and Not Flat-Machinable parcels. Field testing for irregular presorted rates and Not Flat-Machinable rates available after May 14, 2007.
- e. *Parcel Post.* Parcel Post rates include the following:
 - 1. Intra-BMC rates and inter-BMC rates (including balloon and oversized rates and origin BMC and BMC presort discounts); machinable parcels and nonmachinable parcels.
 - 2. Parcel Select DBMC rates, DSCF rates, and DDU rates (including balloon and oversized rates); machinable parcels and nonmachinable parcels.
- f. *Bound Printed Matter.* Nonpresorted rates (single-piece rates), presorted rates, DBMC rates, DSCF rates, and DDU rates; machinable parcels and irregular parcels. Field testing for nonpresorted rates (single-piece rates), machinable and irregular parcels, available after May 14, 2007.
- g. *Media Mail.* Single-piece rates, basic rates, and 5-digit rates; machinable parcels. Field testing for all irregular parcels available after May 14, 2007.
- h. *Library Mail.* Single-piece rates, basic rates, and 5-digit rates; machinable parcels and irregular parcels. Field testing for all Library Mail rates available after May 14, 2007.

2.9.3 Extra Services

[Revise text of 2.9.3 to read as follows:]

eVS mailers may use the following Extra Services if they are available for the specific class of mail used:

- a. Delivery Confirmation.
- b. Signature Confirmation.
- c. Certified Mail.
- d. Insured Mail, if PS Form 3877 is used.
- e. Collect on Delivery (COD), if PS Form 3877 is used.
- f. Return Receipt.
- g. Return Receipt for Merchandise.
- h. Restricted Delivery.
- i. Special Handling.

- j. Bulk Insurance.

[Revise title and text of 2.9.4 to read as follows:]

2.9.4 Use

Mailers depositing permit imprint parcels for those classes of mail and rate categories specified in 2.9.2 may document and pay postage using eVS. Mailers authorized to commingle Standard Mail parcels or Package Service presorted parcels under 705.6.0 and 705.7.0 also may use eVS to document and pay postage for all parcels in the mailing for those mail classes and subclasses available under 2.9.2.

* * * * *

2.9.8 Verification and Postage Adjustments

[Revise 2.9.8 to read as follows:]

USPS randomly samples parcels and considers verification samples to be representative of the entire mailing period. Verification data is used to make the following monthly adjustments for postage due, collected on the 21st day after the last day of the month of mailing:

- a. *Postage Adjustment Factor (PAF) Payment.* USPS applies postage adjustment calculations, based on verification samples, to all mailpieces mailed during the mailing period. A mailing period is defined as a calendar month for purposes of calculating adjustments in eVS. USPS adjusts the total postage for the mailing period if the total postage of the pieces sampled during the mailing period results in an underpayment greater than 1.5%. The mailer must pay postage for any underpayments identified by USPS verification. The mailer must maintain sufficient funds in the mailer's postage account to cover any underpayments discovered after acceptance of the mail.
- b. *Unmanifested Parcel Payment.* The mailer is responsible for postage payment of unmanifested parcels. Unmanifested parcels are those parcels for which the Postal Service has obtained information from scanning operations but has not received or successfully processed manifest files and records corresponding to the parcels. The mailer must pay postage for unmanifested parcels or pieces identified by USPS. The mailer must maintain sufficient funds in the mailer's postage account to cover postage due discovered after acceptance of the mail.
- c. *Mis-shipped DDU Parcel Payment.* The mailer is responsible for postage payment of destination delivery unit (DDU) mis-shipped parcels. DDU Mis-shipped parcels are DDU rate parcels delivered to the incorrect Postal Service facility by the mailer and transported by the Postal Service to the correct facility. The mailer must pay postage for DDU

mis-shipped parcels identified by USPS. The mailer must maintain sufficient funds in the mailer’s postage account to cover postage due discovered after acceptance of the mail.

ELM Revision: Official Personnel Folder

Effective April 12, 2007, *Employee and Labor Relations Manual* (ELM) 349, Official Personnel Folder, is added to describe the purpose and contents of a Postal Service employee's Official Personnel Folder (OPF). Part 349 also describes the electronic OPF (eOPF) system and what constitutes an "official record" in the OPF.

Employee and Labor Relations Manual (ELM)

	*	*	*	*	*
3	Employment and Placement				
	*	*	*	*	*
340	Suitability, Selection, and Appointment				
	*	*	*	*	*

[Add 349 to read as follows:]

349 Official Personnel Folder

349.1 Purpose

The Official Personnel Folder (OPF) documents the employment history of individuals employed by the federal government. The records included in the OPF protect the legal and financial rights of the government and the employee. An OPF is established and maintained for each Postal Service employee, regardless of appointment type or duration.

349.2 Contents

The OPF contains personnel records that reflect the employee's official status, benefits, and service and includes other documents that are significant in the employee's Postal Service career. When an employee has former postal or federal civilian service, the OPF for that service must be merged into a single OPF.

349.3 Electronic Official Personnel Folder System

The official record of a document in an OPF is the hard copy until the document is scanned and accepted into the Postal Service's electronic Official Personnel Folder (eOPF) system. At that point, the scanned image contained in the eOPF system is the official record of the document, and the hard copy ceases to be the official record.

Exceptions:

- If a PS Form 50, *Notification of Personnel Actions*, (1) has been created electronically and stored in the Postal Service's human resources information system, and (2) has not been printed out in hard copy and placed in the OPF, then the official record is the electronic version of the PS Form 50 stored in the human resources information system.
- If a document has been created electronically and stored in the Postal Service's eOPF system, the official record is the electronic version of the document stored within the eOPF system.

Handbooks

Revision to Handbook EL-312, Employment and Placement

The Postal Service™ is required by federal law to collect information regarding the disability status of all applicants hired. This information is used to prepare statistical reports that show agency progress in hiring, placement, and advancement of disabled individuals. Effective immediately, disability status codes will be collected from newly hired employees on the revised PS Form 2489, *Self-Identification of a Physical or Mental Disability*. (See related article on page [61](#).)

Handbook EL-312, *Employment and Placement*, is updated with a new part 576 that explains the procedures for completing and processing revised PS Form 2489.

Handbook EL-312, *Employment and Placement*

* * * * *

5 Suitability

* * * * *

57 Medical Suitability

* * * * *

[Add 576 to read as follows:]

576 Self-Identification of a Physical or Mental Disability

Guidelines for the use of PS Form 2489, *Self-Identification of a Physical or Mental Disability*, are as follows:

- After an applicant has been selected and given a job offer, he or she must be provided with PS Form 2489, *Self-Identification of a Physical or Mental Disability*, to complete. PS Form 2489 is typically provided to the new employee along with other forms that are completed after a job offer.
- PS Form 2489 must not be included in a packet of forms if the packet is given to job applicants before a job offer has been made.

c. Identification of a physical or mental disability status code on PS Form 2489 is the sole responsibility of the new employee. Postal Service employees or contractors must *not* give advice or influence in any way the new employee's selection of a disability status code.

d. Process PS Form 2489 as follows:

1. Give PS Form 2489 to a new employee to complete only after the applicant has been selected and given a job offer.
2. Review the completed PS Form 2489 to determine whether the new employee has circled a code and entered it on the form. If the new employee did not circle or enter a code, circle "01" and enter "01" in the space provided. Code "01" indicates that an individual does not wish to have his or her disability status officially recorded outside of medical records.

Special Instructions for New Employees Hired Under Noncompetitive Program for People with Severe Disabilities. These individuals must report disability data using the appropriate code, 13 to 94. If these persons do not furnish a code, Human Resources must obtain the code (13 to 94) from the employment records or medical documentation used to justify the appointment, circle it on the form, and enter the code in the space provided.

3. Enter the code from PS Form 2489 on the accession worksheet and in the applicable system when processing the accession action. If a new employee does not furnish a disability code, Human Resources must record code "01" when processing the accession action.

A current employee who wishes to change his or her self-identification may do so at any time by submitting a completed PS Form 2489 to Human Resources. A disability code change for a current employee must be processed as a profile change in the system for processing personnel actions.

4. Destroy the completed PS Form 2489. Do not file PS Form 2489 in the Official Personnel Folder or in the Preemployment Investigation File.

Management Instructions

New Management Instruction: Air Quality Management

Management Instruction (MI) EL-890-2007-1, *Air Quality Management*, is now available and is effective immediately. The MI has been aligned with policy and procedures to enable Postal Service™ compliance with regulatory requirements. This new MI documents organizational changes, lists additional training courses, and provides updated references to relevant organizations.

MI EL-890-2007-1 renders the following MIs obsolete:

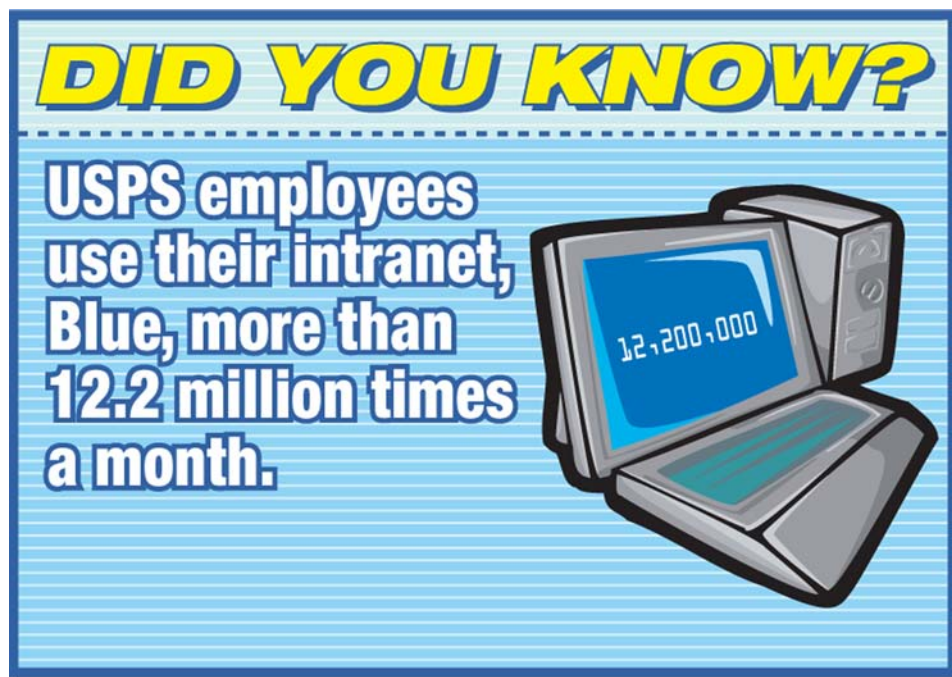

- MI AS-550-95-18, *Clean Air Act Compliance*, December 1, 1995.
- MI AS-550-1999-4, *Alternative Fuel Vehicle Program*, March 5, 1999.

MI EL-890-2007-1 is available on the Postal Service PolicyNet Web site:

- Go to <http://blue.usps.gov>.
- Under “Essential Links” in the left-hand column, click on *References*.
- Under “References” in the right-hand column, under “Policies,” click on *PolicyNet*.
- Click on *MIs*.

Missing, Lost, or Stolen U.S. Money Order Forms

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service™ employees responsible for accepting and cashing postal money orders. All interim notices should be destroyed when the numbers listed appear in the *Postal Bulletin*. The

actual serial numbers consist of the first 10 digits on the money orders. Check for altered dollar amounts by holding money orders to the light.

Missing, Lost, or Stolen Canadian Money Order Forms

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service™ employees responsible for accepting and cashing postal money orders. Destroy any interim notices when the numbers listed appear in the *Postal Bulletin*. The new money order serial numbers consist of the first 9 digits. The 10th digit is a check digit only.

Do not cash new style money orders **000 000 001 to 692 600 000**. Advise holders to send invalid money orders to: Canada Post Corporation, Ottawa, Canada K1A 0B1. Check for altered dollar amounts by holding money orders to the light.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
 - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <http://www.usps.com/missingmoneyorders/security.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Other Information

Overseas Military Mail

Mail addressed to military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO table below outlines these conditions by APO/FPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to determine which APO/FPO ZIP Codes are active and which

conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO ZIP Codes, toll free, at 800-810-6098, Monday–Friday, 0730–1600 ET.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

The entries under “Changes” appear in bold in the APO/FPO Table starting below.

RESTRICTIONS

LEGEND

PS Form 2976, *Customs – CN 22 (Old C 1) and Sender's Declaration* (green label)

PS Form 2976–A, *Customs Declaration and Dispatch Note*

AAFES	= Army and Air Force Exchange Service
APO	= Army/Air Force Post Office
Box R	= Retired military personnel
FPO	= Fleet Post Office
DMM	= <i>Domestic Mail Manual</i>
MOM	= Military Ordinary Mail
MPO	= Military Post Office
PAL	= Parcel Airlift
PSC	= Postal Service Center
SAM	= Space Available Mail
USDA	= United States Department of Agriculture

Note: Mail order catalogs are prohibited as SAM or PAL mail.

A. Securities, currency, or precious metals in their raw, unmanufactured state are prohibited. Official shipments are exempt from this restriction.

A1. Mail addressed to "Any Servicemember," or similar wording such as "Any Soldier," "Sailor," "Airman," or "Marine"; "Military Mail"; etc., is prohibited. Mail must be addressed to an individual or job title such as "Commander," "Commanding Officer," etc.

B. PS Form 2976–A is required for all mail weighing 16 ounces or more, with exceptions noted below. In addition, mailers must properly complete required customs documentation when mailing any potentially dutiable mail addressed to an APO or FPO regardless of weight. The following are exceptions to the requirement for customs documentation on nondutiable mail that weighs 16 ounces or more:

- Known mailers are exempt from providing customs documentation on non-dutiable letters, and printed matter weighing 16 ounces or more. (A known mailer is anyone who legally applies a permit imprint to a mailpiece. Mail with meter postage is not considered to be from a known mailer.)
- All federal, state, and local government agencies are exempt from providing customs documentation on mail addressed to an APO or FPO, except for those APOs/FPOs to which restriction B2 applies.
- Prepaid mail from military contractors is exempt, providing the mailpiece is endorsed "Contents for Official Use — Exempt from Customs Requirements."

B1. PS Form 2976 or 2976–A is required. Articles are liable for customs duty and/or purchase tax unless they are bona fide gifts intended for use by military personnel or their dependents. When the contents of a parcel meet these requirements, the mailer must endorse the customs form, "Certified to be a bona fide gift, personal effects, or items for personal use of military personnel and dependents," under the heading, Description of Contents. **Exceptions:** All other exceptions listed in restriction B above are applicable to this restriction.

B2. All federal, state, and local government agencies must complete customs documentation when sending mail addressed to or from this APO or FPO weighing 16 ounces or more.

C. Cigarettes and other tobacco products are prohibited.

C1. Obscene articles, prints, paintings, cards, films, videotapes, etc., and horror comics and matrices are prohibited.

D. Coffee is prohibited.

E1. Medicines or vaccines not conforming to French laws are prohibited.

E2. Any matter depicting nude or seminude persons, pornographic or sexual items, or nonauthorized political materials is prohibited. Although religious materials contrary to the Islamic faith are prohibited in bulk quantities, items for the personal use of the addressee are permissible.

E3. Radio transceivers, cordless telephones, global positioning systems, scanners, base stations, and handheld transmitters are prohibited.

F. Firearms of any type are prohibited in all classes of mail. See definitions of firearms in DMM 601.11.1.2c. This restriction does not apply to firearms mailed to or by official U.S. government agencies. The restriction for mail to this APO/FPO ZIP Code does not apply to firearms mailed from this APO/FPO ZIP Code, provided ATF and USPS regulations are met. Antique firearms are a separate category defined in DMM 601.11.2 and ATF regulations; they do not require an ATF form.

F1. Privately owned weapons addressed to an individual are prohibited in any class of mail.

F2. Importation of firearms is restricted to one shotgun and one single shot .22 caliber rifle per individual.

G. Only First-Class Mail letters, Periodicals, and Standard Mail items are authorized.

H. Meats, including preserved meats, whether hermetically sealed or not, are prohibited.

H1. Pork or pork by-products are prohibited.

I. Mail of all classes must fit in a mail sack. Mail may not exceed the following dimensions:

Length

42"	72" length and girth combined over 42" to 44"	24" girth over 44" to 46"20" girth over 46" to 48"16" girth
				Maximum length 48"

This restriction does not apply to registered mail and official government mail marked MOM.

I1. This restriction does not apply to registered mail.

I2. This restriction does not apply to official government mail marked MOM.

J. Parcels may not exceed 108 inches in length and girth combined.

K. Mail that includes in the address the words, "Dependent Mail Section," may consist only of letter mail, newspapers, magazines, and books. No parcel of any class containing any other matter may be mailed to the Dependent Mail section. This restriction does not apply if the address does not include the words "Dependent Mail Section."

L. All official mail is prohibited.

M. Fruits, animals, and living plants are prohibited.

N. Registered mail is prohibited.

O. Delivery status information for Extra Services is not available on USPS.com.

P. APO is used for the receipt and dispatch of official mail only.

Q. Mail may not exceed 66 pounds, and size is limited to 42 inches maximum length and 72 inches maximum length and girth combined.

R. All alcoholic beverages, including those mailable under DMM 601.8.0, are prohibited.

R1. Materials used in the production of alcoholic beverages (i.e., distilling material, hops, malts, yeast, etc.) are prohibited.

T. Mailings of case lots of food and supplemental household shipments must be approved by the sender's parent agency prior to mailing.

U. Parcels must weigh less than 16 ounces when addressed to Box R. This restriction does not apply to mail endorsed "Free Matter for the Blind or Handicapped."

U1. Mail is limited to First-Class Mail weighing 13 ounces or less when addressed to Box R. This restriction does not apply to mail endorsed "Free Matter for the Blind or Handicapped." Videotapes are prohibited when addressed to Box R, regardless of weight.

U2. Mail is limited to First-Class Mail letters only when addressed to Box R.

U3. Mail is limited to First-Class Mail correspondence (including voice and video cassettes), newspapers, magazines, photographs, not exceeding 16 ounces, when addressed to Box R.

V. Express Mail Military Service (EMMS) not available from any origin.

V1. Delivery Confirmation service is not available.

W. Meat products, such as dried beef, salami, and sausage, may be mailed, provided they remain in their original, hermetically sealed packages and bear USDA certification. Other meats, bones, skin, hair, feathers, horns or hoofs of hoofed animals, wool samples, tobacco leaves, including chewing and pipe tobacco, snuff, cigars, and cigarettes, or obscene material, including obscene drawings, photographs, films, and carvings, are prohibited. Exception: 200 grams of tobacco per parcel are permitted duty free.

X. Personal mail is limited to First-Class Mail items (to include audio cassettes and voice tapes) weighing 13 ounces or less. This limitation does not apply to official mail.

Y. Mail is limited to First-Class and Priority Mail items only. All Periodicals, Standard Mail items, and Package Services items (including SAM and PAL) are not authorized. This restriction also applies to official mail.

Z. No outside pieces (OSPs).

Z1. The following restriction is applicable only to International Service Centers (ISC)/Exchange Offices. An Anti-Pilferage Seal (Item No O817E or O818A) is required on all pouches and sacks.

Future performance of the funds will vary and may be significantly different from the returns shown above. See the *Summary of the Thrift Savings Plan* for detailed information about the funds and their investment risks. The monthly returns of the TSP Funds represent net earnings for the month after deduction of accrued administrative expenses and, except for the G Fund, after

deduction of trading costs and accrued investment management fees as well. The returns for the four indexes shown do not include any of these deductions.

* Implemented May 2001.

See next page for new L Funds.

Missing Children Poster Display Instructions

Post Offices, classified stations, branches, and contract postal units may display this poster at their option. If the poster is displayed, it should be placed on the community bulletin board located in the Post Office™ box lobby and not in the main retail (full service) lobby. Alternatively, Missing Children posters can be maintained in a binder behind the counter to be used as a reference guide. The posters also may be posted in a prominent location where letter carriers will be able to see them before or after they go out of their routes. Making this information available to letter carriers is consistent with the NALC/USPS Child Alert Program to facilitate identification of missing children.

Companion posters, authorized for display on bulletin boards maintained by employee organizations, appear periodically in *The Postal Record*, a publication for members of the National Association of Letter Carriers.

This poster is published in cooperation with the National Center for Missing and Exploited Children, the United States Department of Justice, and the National Association of Letter Carriers. Information appearing on this poster is selected solely by the National Center for Missing and Exploited Children (NCMEC).

In addition to *Postal Bulletin* updates, NCMEC distributes information periodically. Notification of newly reported missing children is sent to designated district "Missing Children" coordinators via e-mail addresses provided by district managers. Within 24 hours of receipt of an e-mailed Missing Children poster, district coordinators should distribute copies to all Postal Service™ facilities in their districts. Missing Children posters are to be displayed as noted above for 30 days unless notification is received (from NCMEC) to remove a particular poster sooner. The e-mail network is used to distribute posters and information in only the most urgent cases of missing children. This system supplements, but does not replace, the missing children information in this *Postal Bulletin*.

Missing Children posters are available to the U.S. Postal Service® only as described above. If Postal Service employees are contacted by individuals or local agencies about displaying a sign or poster of a missing child in local Post Offices, the individual or agency should be politely informed that the U.S. Postal Service displays only those posters provided by NCMEC, because it has been designated by the U.S. Department of Justice to be the national clearinghouse and resource center for missing and exploited children. The individual or agency should then be referred to NCMEC at 800-843-5678.

If you have any information, or for free prevention tips, please call 800-THE-LOST (800-843-5678).

Forms

Revised PS Form 2489, Self-Identification of a Physical or Mental Disability

The Postal Service™ is required by federal law to collect information regarding the disability status of all applicants hired. This information is used to prepare statistical reports that show agency progress in hiring, placement, and advancement of disabled individuals. Effective immediately, disability status codes are to be collected from newly hired employees by having the employee complete revised PS Form 2489, *Self-Identification of a Physical or Mental Disability*. This form must not be given to an applicant until after he or she has been selected and given a job offer.

Handbook EL-312, *Employment and Placement*, is updated with a new part 576 that explains the procedures for completing and processing revised PS Form 2489. (See related article on page [32](#).)

Revised PS Form 4584, Observation of Driving Practices

Effective June 4, 2007, supervisors must use PS Form 4584, *Observation of Driving Practices*, when they observe the driving practices of Postal Service™ employees with driving responsibilities. The December 2006 edition of this form replaces the August 1984 edition. All previous editions of PS Form 4584 are obsolete and must be recycled/discarded.

When used correctly, PS Form 4584 can aid in identifying and eliminating driving practices that could lead to accidents and injuries. The form also provides an opportunity for positive recognition and reinforcement of defensive and safe driving practices. Detailed information about observation of driving practices is provided in Handbook EL-804, *Safe Driver Program*, available online and, from the Material Distribution Center (MDC), in hard copy.

PS Form 4584, formerly a four-part set, is a two-page form, available on the Postal Service Intranet and from the MDC. The form has been completely reformatted for ease of use, and it can be completed online.

Viewing the Form Online

- PS Form 4584 is available on the Postal Service Intranet:

Re-emphasis of Policy on Corrections to Change-of-Address Orders

The Postal Service™ holds a special trust with the American people. We are obligated to maintain that trust by ensuring the security of the mail and confidence in the reliability and integrity of our systems. The American people have a right to expect that the Postal Service and its employees will protect the information concerning a customer's place of residence.

The Postal Service receives approximately 47 million change-of-address (COA) orders each year. As with any system or process, some mistakes will be made by the customer or by the Postal Service during data capture. When errors occur with data elements of a customer's name and/or address, there is an expectation that Postal Service employees will recognize the problem and correct the deficiency.

PS Form 3546, *Official Change/Correction to Mail Forwarding Change of Address Order*, is an official document whereby employees make corrections to the spelling of a name or elements of a mailing address. It is an internal form that must be used to modify an existing COA record or to request the deletion of a COA record.

All corrections to COA information by employees must be made using PS Form 3546 and be properly annotated on PS Form 3982, Changes of Address (pink card). These are essential steps to ensure the correction flows through the Postal Automated Redirection System (PARS) to the national database.

Customers who contact Postal Service personnel to report any irregularity concerning the legitimacy of a change-of-address order must be given prompt attention. Refer all cases to appropriate management personnel for

action. Management will contact the local Inspection Service office to report the incident. Customers should be advised to call 800-ASK-USPS (800-275-8777) immediately to report the incident. Also, where there is suspicion that the change-of-address order is fraudulent, forwarding of mail should be suspended at the delivery unit. A PS Form 3546 must be submitted to cancel the change-of-address order, and an exclusion in the Change of Address Reporting System (COARS) must be submitted to stop the interception and forwarding of mail from that address.

The Postal Service and the customer benefit by employees' attentiveness in correcting the routing of customers' mail. Employees at every level are encouraged to assist in our effort to achieve the best customer service possible. The Postal Automated Redirection System (PARS) and the COA Forms Processing System (CFPS) increase the need for accurate and error-free data processing information. Automated equipment will receive immediate access to data when corrections are submitted using a PS Form 3546 and entered into these systems.

The future of the Postal Service depends on the quality of the service we provide. The forwarding of mail to our customers and timely notification of address changes to mailers increase the value of the Postal Service. Proper use of PS Form 3546 is critical to ensure an error-free mail forwarding process.

Strict adherence to these procedures is essential.

You can find this form at <http://blue.usps.gov>; click on *Forms*, then select the form by number. A copy of this form appears on page 66 in this *Postal Bulletin*.

The cost per unit of 500 is \$11.50. This cost includes overprinting the address of the fulfillment office placing the order. You may pay for orders with local IMPAC credit cards, checks, or money orders. However, Cyril-Scott Company cannot process the order until it receives payment. Local eBuy procedures may also apply (refer to local procurement procedures).

Postal Service™ Headquarters will fund brochure quantities for the 50 centralized processing sites for the:

- September 3, 2007 (HOL) print run.

Centralized sites may order **additional** quantities from the Cyril-Scott Company from local funds by following the ordering instructions contained within this article. If you order additional quantities from local funds, inform Cyril-Scott Company that this is a centralized site supplemental order.

All other local Post Offices™ should follow the ordering instructions contained within this article and utilize local funds.

Cyril-Scott Company will deliver orders within 35 calendar days after printing. Printing begins 1 week after the deadline date, and actual receipt of the order will depend on the ultimate destination and the corresponding delivery service standard. You should save copies of all orders placed at your local Post Office until the order has been received. Please ensure procedures are in effect locally for proper verification of receipt.

Joining Forces To Drive Revenue

The Postal Service™ teams up with Lucasfilm Ltd. to celebrate the 30th anniversary of *Star Wars*. The **Jedi Shipping/Mailing Master Sweepstakes** offers customers a chance to win a Grand Prize trip for four to *Star Wars* Celebration IV in Los Angeles, or win a Second Prize (1 of 100) \$100 eBay gift certificates.

This promotion also adds a new star to our galaxy of shipping options — *Star Wars* Pre-paid Express Mail® 3-Packs — available for a limited time, only online! *Star Wars*-branded packaging will feature portraits of Yoda, Obi-Wan, and Darth Vader. The packaging will be available for pre-order on April 6 and will be available to ship on Sunday, May 6. These items will be on every fan's list of "must-have" *Star Wars* stuff — encourage customers to pre-order the 3-Packs before it's too late.

To commemorate the 30th anniversary of *Star Wars*, the *Star Wars* series stamp pane was unveiled Wednesday, March 28. Fifteen different icons from the *Star Wars* series are depicted on these First-Class™ stamps.

Prior to the release of these stamps, customers will be voting for their favorite *Star Wars* stamp at www.uspsjedimaster.com. Votes will be tallied and the favorite *Star Wars* stamp will be announced on May 25. This stamp will then become available for individual purchase in late summer 2007.

Be on the lookout for new *Star Wars* POP signage. Visit <http://blue.usps.gov/advertising> for more details.

This epic promotion is sure to be a hit — take part and watch your revenue blast off!

New Account Identifier Codes for Recording Sales of Forever Stamps

Effective April 12, 2007, Post Offices™ and postal retail units will begin selling the new *Forever Stamp*™ at the new price of 1-ounce First-Class Mail® single-piece postage — 41 cents each.

The *Forever Stamp* is intended to reduce the inconvenience that mailers may experience in acquiring new-rate postage or “make-up” stamps, such as 2-cent or 3-cent stamps prior to implementation of new prices. Regardless

of the purchase price, the postage value of a *Forever Stamp* will be the current 1-ounce First-Class Mail single-piece letter rate and will remain valid regardless of future First-Class Mail price changes.

New individual account identifier codes (AICs) have been set up to report the new *Forever Stamp* sales to correspond with the source of the sales transaction. The new AICs are described in the table below.

Stamp Announcement 07-07: Settlement of Jamestown Double-sided Commemorative Sheet

Copyright USPS 2006

The Postal Service™ will issue a 41-cent, *Settlement of Jamestown* commemorative stamp in a pressure-sensitive adhesive (PSA) double-sided sheet of 20 stamps (Item 461000) on May 11, 2007, in Jamestown, Virginia. The stamp designed by Richard Sheaff of Scottsdale, Arizona, also goes on sale nationwide May 11, 2007.

This commemorative sheet celebrates the 400th anniversary of the settlement of Jamestown, Virginia, by English colonists in 1607. The stamp featuring a painting of the three ships that carried the first settlers is shaped like a triangle, as was the fort raised by the Jamestown settlers shortly after their arrival.

The selva area on the front of the sheet includes a painting of Jamestown by artist Richard Schlecht of Frederick, Maryland, and was reviewed with the help of archaeologists currently excavating the site of the Jamestown fort.

How to Order First Day of Issue Postmark

Customers have 60 days to obtain the first day of issue postmark by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, or at The Postal Store® Web site at www.usps.com/shop. They should affix the stamps to envelopes of their choice,

address the envelopes (to themselves or others), and place them in a larger envelope addressed to:

SETTLEMENT OF JAMESTOWN COMMEMORATIVE SHEET
POSTMASTER
425 N BOUNDARY ST
WILLIAMSBURG VA 23185-9998

After applying the first day of issue postmark, the Postal Service will return the envelopes through the mail. There is no charge for the postmark. All orders must be postmarked by July 10, 2007.

How to Order First Day Covers

Stamp Fulfillment Services also offers first day covers for new stamp issues and Postal Service stationery items postmarked with the official first day of issue cancellation. Each item has an individual catalog number and is offered in the quarterly *USA Philatelic* catalog. Customers may request a free catalog by calling 800-STAMP-24 or writing to:

- Item 461099, Souvenir Sheet of 20 and Digital Color Postmark FDC — \$9.70.

Distribution: Item 461000 \$8.20 Settlement of Jamestown, Commemorative Sheet of 20 Stamps

Stamp distribution offices (SDOs) will receive approximately one half their standard automatic distribution quantity for a PSA sheet stamp. Distributions are rounded up to the nearest master carton size (2,000 commemorative sheets/40,000 stamps).

Initial Supply to Post Offices

SDOs will make a subsequent automatic distribution to Post Offices of one-half their standard automatic distribution quantities using PS Form 17, *Stamp Requisition/Stamp Return*. SDOs must not distribute this commemorative sheet to Post Offices before May 11, 2007.

Additional Supply

Post Offices requiring additional quantities of Item 461000 must requisition them from their designated SDO using PS Form 17. SDOs requiring additional commemorative sheets must order them from the appropriate accountable paper depository (APD) using PS Form 17.

For fulfilling supplemental orders from SDOs, the Memphis, New York, and Chicago APDs will each receive 120,000 additional commemorative sheets; the San Francisco APD will receive 100,000 additional commemorative sheets; and the Denver APD will receive 32,000 additional commemorative sheets.

Sales Policy

All Post Offices must acquire and maintain a supply of each new commemorative stamp as long as customer demand exists, until inventory is depleted, or until the stamp is officially withdrawn from sale. If supplies run low, Post Offices must reorder additional quantities using their normal ordering procedures. **The \$8.20 Settlement of Jamestown, Commemorative Sheet may not be split and the stamps may not be sold individually.**

Stamp Announcement 07-08: Florida Panther

Copyright USPS 2007

The Postal Service™ will issue a 26-cent, definitive stamp, *Florida Panther*, on May 12, 2007, in Washington DC. The stamp designed by Carl T. Herrman of Carlsbad, California, goes on sale nationwide May 12, 2007.

The *Florida Panther* stamp will be issued in the following formats:

- Pressure-sensitive adhesive (PSA) pane of 20 (Item 104500).
- Water-activated gum (WAG) pane of 100 (Item 106700).
- PSA convertible booklet of 10 (Item 677400).
- PSA coil of 100 (Item 785500).

The stamp features a highly stylized illustration of a Florida panther (*Puma concolor coryi*). This large tawny cat is related to the mountain lion — also known as a cougar or puma. Most active between dusk and dawn, the Florida panther is capable of short but quick bursts of speed while pursuing prey. Its diet includes white-tailed deer, small mammals, and birds.

Nationally known illustrator Nancy Stahl of New York, New York, used a photograph of a Florida panther as the basis for her stamp art.

Distribution: Item 104500, 26-cent Florida Panther, PSA Pane of 20

Initially, stamp distribution offices (SDOs) will receive approximately 200% of their standard automatic distribution quantity for a PSA sheet stamp. SDO distributions will begin May 8, 2007, and be completed May 17, 2007. Distributions are rounded up to the nearest master carton size (40,000 stamps).

Initial Supply to Post Offices

SDOs will make a subsequent automatic distribution to Post Offices of their full standard automatic distribution quantity for a PSA sheet stamp using PS Form 17, *Stamp Requisition/Stamp Return*. SDOs may distribute stamps to Post Offices immediately upon receipt, but not before May 4, 2007.

Additional Supply

Post Offices requiring additional stamps must requisition quantities of Item 104500 from their designated SDO using PS Form 17. SDOs requiring additional stamps must order them from the appropriate accountable paper depository (APD) using PS Form 17.

For fulfilling supplemental orders from SDOs, the Memphis, Chicago, New York, and San Francisco APDs will each receive 8,640,000 additional stamps; and the Denver APD will receive 2,880,000 additional stamps. The Kansas City Stamp Services Center will receive 8,640,000 additional stamps for fulfilling supplemental orders from APDs.

Additional quantities of this definitive stamp will also be made available to SDOs via subsequent automatic distributions, shipped directly from the supplier to the SDOs.

Distribution: Item 106700, 26-cent Florida Panther, WAG Pane of 100

The 26-cent *Florida Panther* definitive stamp in water-activated gum panes of 100 will not be automatically distributed to SDOs. Automatic distributions will be made to APDs only. SDOs requiring quantities of Item 106700 must order them from the appropriate APD using a separate PS Form 17. SDOs ordering this item from APDs, need not order in master carton size quantities. SDOs should only order according to immediate customer demand (10,000 stamps per pad is the minimum order from the APD).

Initial Supply to Post Offices

SDOs will not make a subsequent automatic distribution to Post Offices. Post Offices requiring quantities of Item 106700 must order them from their designated SDO using a separate PS Form 17. SDOs must not distribute stamps to Post Offices before May 4, 2007.

Additional Supply

Post Offices requiring additional stamps must requisition quantities of Item 106700 from their designated SDO using PS Form 17. SDOs requiring additional stamps must order them from the appropriate APD using PS Form 17.

Distribution: Item 677400, \$2.60 Florida Panther, PSA Convertible Booklet of 10

Initially, SDOs will receive approximately 25 percent of their standard automatic distribution quantity for a PSA booklet. SDO distributions will begin May 14, 2007, and be completed June 13, 2007. Distributions are rounded up to nearest master carton size (4,000 booklets).

Initial Supply to Post Offices

SDOs will make a subsequent automatic distribution to Post Offices for one-fourth their standard automatic distribution quantity for a PSA booklet using PS Form 17. SDOs may distribute stamps to Post Offices immediately upon receipt, but not before May 4, 2007.

Additional Supply

Post Offices requiring additional booklets must requisition quantities of Item 677400 from their designated SDO using PS Form 17. SDOs requiring additional booklets must order them from the appropriate APD using PS Form 17.

For fulfilling supplemental orders from SDOs, the San Francisco, Chicago, Memphis, and New York APDs will each receive 1,120,000 additional booklets; and the Denver APD will receive 560,000 additional booklets. The Kansas City Stamp Services Center will receive 2,800,000 additional booklets for fulfilling supplemental orders from APDs.

Additional quantities of this definitive stamp booklet will also be made available to SDOs via subsequent automatic distributions, shipped directly from the supplier to the SDOs.

Distribution: Item 785500, \$24.00 Florida Panther, PSA Coil of 100

All SDOs will receive automatic distributions of \$24.00 *Florida Panther*, PSA coil of 100. Distributions will be in multiple waves. Wave 1 shipments, which began April 10, 2007, will be completed April 19, 2007. Wave 2 shipments, which begin April 24, 2007, will be completed by May 10, 2007. Wave 3 shipments, which will begin June 19, 2007, will be completed by July 19, 2007. Distributions are rounded up to nearest master carton size (800 coils).

Initial Supply for Post Offices

SDOs will not make a subsequent automatic distribution to Post Offices. All Post Offices requiring quantities of Item 785500 must order them from their designated SDO using a separate PS Form 17. SDOs must not distribute coils to Post Offices before May 4, 2007.

Additional Supply

Post Offices requiring additional coils must requisition quantities of Item 785500 from their designated SDO using PS Form 17. SDOs requiring additional coils must order them from the appropriate APD using PS Form 17.

Stamp Announcement 07-11: Pineapple Stamped Cards

Copyright USPS 2007

The Postal Service™ will issue a 26-cent *Pineapple* stamped card design on May 12, 2007, in Washington, DC. The card, designed by Ethel Kessler of Bethesda, Maryland, also goes on sale nationwide May 12, 2007.

Artist Cathie Bleck of Cleveland Heights, Ohio, created the pineapple artwork with black ink on white scratchboard, a board with a thin coat of white clay on its surface. The white in the design is the result of scraping away a portion of the black ink using a razor-sharp tool. Bleck describes the process as similar to woodblock printing.

The *Pineapple* stamped card will be issued in the following formats:

- Item 224700, single-cut cards.
- Item 224800, double-cut reply cards.
- Item 224900, sheet of 40 cards.
- Item 225000, five-card banded vending.

Updated Announcement 07-C: 2007 Stamps and Postal Stationery

“2007 Stamps and Postal Stationery” (Updated Announcement 07-C, April 2007), which appears on pages [87-89](#), replaces the quarterly announcement of the same name, previously printed and sent to customers on request through Stamp Fulfillment Services in Kansas City. The announcement is a listing of stamps and postal stationery items scheduled for issuance during calendar year 2007. Post Offices™ may wish to post this schedule on their bulletin boards.

Customers may also access the *Postal Bulletin* through the Postal Service™ Web site at www.usps.com; click on *About USPS & News*, then *Forms & Publications*, then *Postal Bulletin*.

This announcement will be updated every 2 to 3 months, as changes warrant.

How to Order First Day of Issue Postmarks and Covers

Customers may purchase new stamps or postal stationery items at their Post Office, from the *USA Philatelic* catalog, by calling 800-STAMP-24, or online at www.usps.com by clicking on *Buy Stamps & Shop*. Then they should prepare their own covers by affixing new stamps to the upper-right corner of envelopes or postcards

of their choice, and address those envelopes, postcards, or postal stationery items to themselves or others. (Postage must equal the current First-Class Mail® rate.) For sturdiness, include a card of postcard thickness in each cover (envelopes only) submitted, and tuck in the flap. Place the cover in a larger envelope addressed to:

NAME OF ISSUE
 POSTMASTER
 CITY STATE ZIP CODE (FOLLOWED BY -9991)

Covers submitted for first day of issue postmarks may include additional uncanceled stamps only if the uncanceled stamps were issued before the first day of issue of the new stamps or postal stationery items. All orders must be postmarked on or before the deadline indicated in the “2007 Stamps and Postal Stationery” announcement on pages [87-89](#).

American Flag (2007) Stamp Announcement Corrections

In the article, “Stamp Announcement 07-06: American Flag (2007) Stamp,” in *Postal Bulletin* 22203 (3-29-07, pages 47–52), on page 47, there are two Item number corrections given below. The corrected number is in bold.

- In the first column, in the first bullet, the Item number for the pressure-sensitive adhesive (PSA) pane of 20 is given as 02700. The correct Item number is **102700**.

- In the Philatelic Products paragraph, it states that the First Day Cover Item number is 10276. The correct Item number is **102761**.

In the same article on page 50, the first technical details table for Item 784400 incorrectly states that the plate numbers are on every 20th stamp. The plate numbers are on every **31st** stamp.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. If available, the sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of those postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

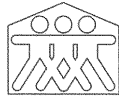

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL POSTMARKS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP+4® CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP+4 code).

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

The following pictorial postmark has been extended for 30 days:

How To Order the First Day of Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first day of issue postmark by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, and at The Postal Store® Web site at www.usps.com/shop.

Customers may submit #6 or #10 covers constructed of paper rated as "laser safe." The Postal Service™ recommends 80-pound Accent Opaque, acid-free envelopes, 9/16" side seams with no glue on the flap. There is a minimum of 10 covers at 50 cents per postmark required at the time of servicing. You may submit a check, money order, or credit card for payment. Two test envelopes must be included. For covers with graphics or lettering, please note the maximum size of all digital color postmarks is 2" high x 4" long. The Postal Service reserves the right not to accept

hand painted and other cachets that are not compatible with our digital color postmark. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of non-specified envelopes results in poor image quality or damage to equipment.

After applying the first day of issue postmark, the Postal Service will return the envelopes through the mail. There is no charge for the postmark. All orders must be postmarked within 60 days of the first day of issue date.

They should affix the stamps to envelopes of their choice, address the envelopes (to themselves or others), and place them in a larger envelope addressed to the following address:

Redesigned Parcel Lock Now Available

The redesigned parcel lock for parcel lockers of older (revision E) cluster box units (CBUs) is now available. The redesigned lock includes the following features:

- Properly positioned upper lock (the pins face down). This will prevent buildup of dust and dirt, which affected the tumblers of the previous locks.
- Tool clearance hole located in the lock's rear cover. If a key breaks in the lock, you will no longer have to drill out the two rear cover rivets in order to remove the rear cover and push out the key stubs. The access hole in the rear cover is aligned with the back of the upper (customer) lock, making it easy to push out a broken key stub. The field maintenance process is now easier and quicker.
- A tab-in-slot design in place of the lower rear cover rivet. The rear cover can now be held in place with only one rivet, which is easily accessible from the top of the lock assembly. It is now easier to replace the lock cover, saving time and effort.
- Repositioned upper (customer) lock key code marking location. This makes it easier to identify the key code needed to order replacement keys.

Ordering Information

Each lock costs \$15.76. The new Postal Service™ Identification Number (PSIN) is O306P1. You must order the

locks from the Material Distribution Center (MDC). Call 800-273-1509.

Note: You must be registered to use TTOE. To register, call 800-332-0317, option 1, extension 2925, and follow the prompts to leave a message (wait 48 hours after registering before you place your first order).

The MDC is the **mandatory** source of supply. If you need to order replacement keys, call the Mail Equipment Shop (MES) at 866-823-4749.

Installation Instructions

For additional information and installation instructions for the O306P1 lock, see Maintenance Management Order (MMO) MMO-036-07, *Redesigned PSIN O306P1 Locks (Rev. E CBU Parcel Locker Locks)*. Contact the Maintenance Technical Support Center at 800-366-4123 for information on that MMO.

Returning Non-functioning PSIN 0306 Locks

As a reminder, the success of this redesign program is based upon the return of non-functioning PSIN O306P locks from the field. See MMO-123-06, *Return of Non-Functional PSIN O306P Locks (Rev. E CBU Parcel Locker Locks)*, for additional information. This MMO is available online at <http://www.mts.usps.gov/pdf/mmo/2006/mmo12306.pdf>. In order to maintain an adequate supply for redesign, please return all non-functioning O306P locks

and parts to the current Postal Service™ lock supplier at the following address:

O306P PARCEL LOCK PROGRAM
COMPX SECURITY PRODUCTS
PO BOX 200
MAULDIN SC 29662-0200

This O306P lock return program gives the Postal Service a major opportunity to take an otherwise discarded asset and use it to create a replacement that is cheaper, more reliable, and easier to maintain.
