Our new Priority!

Some things in life just get better and better. When the new prices go into effect May 12, Priority Mail will be one of them.

Already a reliable, economical and fast way to ship documents and packages, Priority Mail is about to ratchet up its value and competitiveness.

Beginning May 12, customers will have two choices — they can pay less by paying for their Priority Mail postage online. And with the convenience of free Carrier Pickup, they can send their packages without leaving home. Or, if they want some professional assistance, they can go to one of our 37,000 retail outlets nationwide and talk to one of our retail associates.

The Priority Mail Flat-Rate Box is one of our most popular products, and it has gotten better too! We're now offering the Priority Mail Large Flat-Rate Box — it's 50 percent larger. This new box was designed with businesses in mind. They told us what they needed, and that's what we're providing.

Also, anyone with family or friends serving overseas will be pleased to know there's a new reduced flat-rate box price for APO and FPO addresses.

And like the rest of our competitive products, Priority Mail is priced to sell. New prices will make our products more attractive in high-volume categories.

Miracle in Albany

On some days, fate reaches out and grabs you. Recently, fate fell out of a window and landed right on Lisa Harrell.

The Albany, NY, letter carrier was at an apartment house on her route about three hours earlier than usual because she was delivering an Express Mail package. As she walked to the building, she noticed a one-year-old girl in an open second-story window. Harrell looked down, and then felt a

heavy object hit her shoulder. Instinctively reaching out, she caught the child, who had fallen out of the window.

The girl, cushioned from the fall by Harrell's body, was unharmed. The mother retrieved her daughter, but not before Harrell admonished her. "I told her she should never have had that window open," she said.

The incident was widely reported in the national media. Harrell appeared on three nationally-broadcast talk shows and received a congratulatory telephone call from Postmaster General Jack Potter, which she said touched her and left her in tears.

"She's a hero," said Albany Postmaster David Yanni. "No," Harrell said. "I was just in the right place at the right time."

Benefits to the people

GovBenefits.gov is the official benefits Web site of the U.S. government. The site provides citizens with quick access to the most accurate information on more than 1,000 federal and federally funded state benefit and assistance programs.

GovBenefits.gov was designed to help Americans navigate the often complicated process of finding benefit and assistance programs, determining eligibility and finding contact information.

After completing the site's free and confidential questionnaire, you can review a list of benefit programs that — based on individual needs — you may be eligible to join. Each option includes a program description, eligibility criteria and contact information. The site also offers the ability to search for benefit programs by state, keyword and benefit category.

Visit www.govbenefits.gov regularly, especially when life events — like applying for college, retirement or disability — occur. Changes in your situation could make you, or someone you know, eligible for assistance programs.

USPS introduces its new sustainability Web site

The USPS.com Web site — with its familiar shade of blue — is now sporting a splash of green.

The Postal Service has launched USPS.com/green, a new Web site that offers an overview of the Postal Service's energy and environmental initiatives.

The user-friendly site has energy and recycling tips, information on how to "green" the mail and news on the Postal Service's eco-friendly products.

The campaign salutes the Postal Service's efforts to reduce energy consumption. McNiece — named the Postal Service's 2008 Energy Champion — and Murphy are credited for their audits aimed at lowering energy consumption in postal facilities.

"Robert McNiece and his energy team are leading the effort to reduce energy consumption in buildings 30 percent by 2015," his poster says. "After auditing just 35 million square feet, more than 800 billion BTUs of potential energy savings have been identified and are being implemented."

The U.S. Department of Energy's Federal Energy Management Program is reducing the government's energy consumption at federal sites through conservation and alternative energy use.

USPS employees featured in energy conservation campaign

Rock stars, athletes and movie legends have their own posters. Why not postal employees?

Now, at least two do.

Facilities Engineer/Architect Rob McNiece and Dallas Engineer David Murphy are featured in posters celebrating their energy-saving achievements. Produced by the Federal Energy Management Program's "You Have the Power"

Poster featuring Facilities Engineer/Architect Rob McNiece.

campaign, the posters will appear in numerous public locations around Washington, DC, and in the Southwest Area.

DMM Revision: New Commercial Express Mail and Commercial Priority Mail Subchapters

Effective May 12, 2008, the Postal Service™ is revising the *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) to support the price change by creating a commercial Express Mail® subchapter and a commercial Priority Mail® subchapter to separate retail Express Mail and Priority Mail prices and standards from commercial Express Mail and Priority Mail prices and standards. Also, the DMM 110 and 120 subchapters will be updated to reflect only those prices and standards available for retail Express Mail and Priority Mail service.

The Postal Accountability and Enhancement Act of 2006 (PAEA) gives the Postal Service increased flexibility in pricing. On March 4, 2008, the Governors of the Postal Service established new prices and product features for Shipping Services, formerly referred to as competitive products (Express Mail, Priority Mail, Parcel Select®, and Parcel Return Service).

Because of the flexibility in pricing, we were able to create new commercial base prices available through commercial channels for Express Mail and Priority Mail service that are lower than the retail prices available through retail channels. To clearly identify the requirements and pricing for each channel (retail and commercial), two new subchapters will be created to be available concurrent with the May 12, 2008, price change. Those chapters are Commercial Express Mail and Commercial Priority Mail in DMM 410 and 420 respectively. All information regarding retail Express Mail and retail Priority Mail service will remain in subchapters 110 and 120 respectively.

Retail Express Mail service includes those pieces bearing postage paid by adhesive stamps or meter stamps. Retail Priority Mail service includes those pieces bearing postage paid by adhesive stamps, meter stamps, or permit imprint that do not include an electronic Confirmation Services barcode.

Commercial Express Mail service includes those pieces bearing postage paid by customers who use an Express Mail Corporate Account (EMCA), including Federal Agency Accounts or Click-N-Ship® service, or are registered end users of PC Postage® service (e.g., Stamps.com, endicia, and Pitney Bowes) using shipping labels. Commercial Priority Mail service includes those pieces bearing postage paid by customers who use Click-N-Ship service, registered end-users of PC Postage products when using a shipping label (e.g., Stamps.com, endicia, and Pitney Bowes), and customers using permit imprint with electronic Confirmation Services and, effective October 1, 2008, a barcode under 708.5.0 for the ZIP™ Code of the delivery address.

We will incorporate these revisions into the May 12 update of the online DMM available via Postal Explorer® at <http://pe.usps.com> and into the next printed version of the DMM.

DMM Revision: Mailing Standard Changes for Parcel Select Service

Effective May 12, 2008, the Postal Service™ is revising the *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) to support the Shipping Services price and mailing requirements changes as they affect Parcel Select® service. The following changes will occur:

- Module 400, Discount Parcels, will be re-titled Commercial Parcels.
- DMM 450, Parcel Post, will be re-titled and reorganized to contain only Parcel Select information. Information on mailing Parcel Post will be contained in subchapter 150.

- Parcel Select service will be redefined as a Shipping Services product using permit imprint or metered postage when mailing 50 pieces or more. This will not affect the required annual mailing fee for destination-entered packages and will not affect the no-fee electronic option for Delivery Confirmation™ service on destination-entered packages.
- In addition to destination-entered packages, Parcel Select service will include BMC-Presort or OBMC-Presort (Inter-BMC), and origin-entered barcoded Intra-BMC and barcoded Inter-BMC packages. To support the expanded product make-up and the separation of Parcel Select from Parcel Post®

service, the "Parcel Post" marking will not be allowed on any Parcel Select package. Effective September 30, 2008, shippers will be required to use the following product markings:

- Destination Entry — "Parcel Select".
- BMC — "Parcel Select BMC Presort" or "Parcel Select BMC PRSRT".
- OBMC Presort (Inter-BMC) — "Parcel Select OBMC Presort" or "Parcel Select OBMC PRSRT".
- Barcoded Intra-BMC and Barcoded Inter-BMC — "Parcel Select Barcoded" or "Parcel Select BC".

Although not required until September 30, 2008, we encourage shippers to use these price markings as soon as possible after May 12, 2008.

We will incorporate these revisions into the next printed version of the DMM and into the monthly update of the online DMM, which is available via Postal Explorer® at <http://pe.usps.com>.

Revision to PS Form 1768: Effect of Obsoleting PS Form 4582, Operator's Record (Driver Jacket)

Effective immediately, PS Form 4582, *Operator's Record*, also known as the "Driver Jacket," is obsolete for all new-hire drivers. The form was out of date and needed to be aligned with current business requirements and Postal Service™ policies. (See related article in "Forms," on page [16](#).)

Installation heads are responsible for updating and maintaining all PS Forms 4582 in their possession. Each Driver Jacket contains records and information about an individual employee's driver training. The PS Forms 4582 must be maintained until the employee's separation and made available, upon request, to attorneys at the National Tort Center.

The following revision to PS Form 1768, *Safe Driver Award Committee Decision*, is effective immediately.

Instructions

[Revise "Accident Review" to read as follows:]

Accident Review. All accidents should be reviewed by the installation's designated official and recorded on PS Form 1768, which will be maintained at the employee's duty station. Decisions should be rendered in line with the definition of a preventable accident as described here. Prior to rendering a decision, the accident must be discussed with the driver involved as required on PS Form 1768. When extenuating circumstances make it difficult to reach a decision and an additional opinion is necessary, the accident report and additional required documentation may be submitted to the District Safe Driver Awards Committee. If necessary, the District Committee may submit the case to the Area Office by following the procedures outlined in pages 5 and 6 of the March 1994, Safe Driver Award Rules Handbook.

PS Form 4582, Operator's Record (Driver Jacket) Is Obsolete for New Hire Drivers

Effective immediately, PS Form 4582, *Operator's Record*, also known as the “Driver Jacket,” is obsolete for all new-hire drivers. The form was out of date and needed to be aligned with current business requirements and the policies set forth in Handbook EL-804, *Safe Driver Program*.

Instead of updating the form and continuing to use paper copies, Safety and Environmental Performance Management (SEPM) decided to maintain driver training information in the National Training Database (NTD) instead of on PS Forms 4582. SEPM coordinated this change with the stakeholders in Employee Development.

Effective immediately, all new driver training records will be entered into the NTD.

Installation heads are responsible for updating and maintaining all PS Forms 4582 in their possession. Each Driver Jacket contains records and information about an individual employee's driver training. PS Forms 4582 must be maintained until the employee's separation and made available, upon request, to attorneys at the National Tort Center.

Changes in Maintenance and Retention of Forms

The obsoleting of PS Form 4582 for new-hire drivers affects maintenance and retention of a variety of forms and documents. A summary of changes by section of PS Form 4582 affected and by other forms and documents affected is presented here:

■ PS Form 4582, Section A:

- Office of Personnel Management form OF-346, *U.S. Government Motor Vehicle Operator's Identification Card*, is no longer applicable.
- Requirements for state driver's licenses are documented in Handbook EL-804, Chapter 4, and Handbook EL-312, *Employment and Placement*, Chapter 5.
- The employee's state license number is kept in the employee's pre-employment investigative file and the Human Capital Enterprise (HCE) database.

■ PS Form 4582, Section B:

- Fifty-five (55) new course descriptions have been developed to facilitate capturing of driver training information in this section.
- Course descriptions align with current requirements in Handbook EL-804; Employee Development assigns NTD course numbers.

■ PS Form 4582, Section C:

- Information about accidents on PS Form 4582 is recorded in a database owned and maintained by Safety.
- Citation and arrest information no longer applies to this form.

■ PS Form 4582, Section D:

- Responsibility for maintaining Safe Driver Award information was assigned to the installation head at the employee's duty station as of January 1993.
- The Driver Safety Instructor (DSI) is no longer required to maintain Safe Driver Award Information (DSI Standard Position Description).

■ PS Form 4582, Section E:

- Information about Special Awards Earned is contained in the employee's Official Personnel Folder.

■ Section F:

- DSIs are no longer required to complete the Summary of Driving Observations (DSI Standard Position Description).
- Requirements for observing drivers are now covered by PS Form 4584, *Observation of Driving Practices*, December 2006.

- Updated PS Forms 4584 are maintained by an employee's supervisor or manager.

■ Other PS Forms and Documents Affected:

- Forms filed in the existing PS Form 4582 (Driver Jacket) are no longer applicable as of January 1993.
- PS Form 4583, *Physical Fitness Inquiry for Motor Vehicle Operators*, is subject to privacy and restricted information requirements because it contains medical information.
- The *Road Test* has been replaced with Exam 804, *Initial Road Test*, documented in Handbook EL-804, subchapter 24.
- The *End-of-Training Test* has been replaced with Exam 806, *End-of-Training Road Test*, documented in Handbook EL-804, part 336.
- Test information is maintained by the National Test Administration Center (NTAC).
- State driving abstracts are maintained in pre-employment investigative files.

Changes to Manuals and Handbooks

The obsoleting of PS Form 4582 affects the following:

- *Employment and Labor Relations Manual* (see article in "Manuals" on page [8](#)).
- Handbook EL-804, *Safe Driver Program* (see article in "Handbooks," on page [10](#)).
- PS Form 1768, *Safe Driver Award Committee Decision* (see article in "Forms" on page [15](#)).

Mailbox Improvement Week, May 19–25

Each year, the Postal Service™ designates the third full week of May as Mailbox Improvement Week to encourage customers on city motorized, rural, or contract delivery service routes (formerly highway contract box delivery routes) to examine and, where necessary, improve the appearance of their mailboxes. Neat, attractive mailboxes make a significant contribution to the appearance of the countryside and streets in suburban areas. Mailbox Improvement Week, May 19–25, calls attention to the need for providing mailboxes that are:

1. Approved by the postmaster general.
2. Designed to protect the mail from weather.
3. Safe to use.
4. Conveniently located.
5. Neat in appearance.

Additional information is available on the Delivery and Retail Web site at http://blue.usps.gov/delret/L4CityDelvry_GROWTH.htm.

Mailboxes that meet these five important requirements help delivery and collection operations and improve service to the entire route. There are three approved styles of curbside mailboxes:

1. Traditional design (see Exhibit A).
2. Contemporary design (see Exhibit B).
3. Locked, full, or limited service.

USPS-STD-7B governs the design and specifications of curbside mailboxes and includes provisions for improved quality of the product.

Notice 209

Postmasters should send Notice 209, *Mailbox Improvement Week*, to all rural and highway contract box delivery route customers the week before Mailbox Improvement Week to alert them of the event. You can order Notice 209 from the Material Distribution Center (MDC) through one of the following methods.

- Use touch-tone order entry (TTOE). Call 800-273-1509.

Note: You must be registered to use TTOE. To register, call 800-332-0317, option 1, extension 2925, and follow the prompts to leave a message. (Wait 48 hours after registering before placing your first order). For complete TTOE ordering instructions, visit the Materials Customer Service Web site at: http://blue.usps.gov/purchase/_doc/ops_ttoeins.doc or call National Materials Customer Service at 800-332-0317, option 4.

City Motorized, Rural, and Contract Delivery Service Routes

Customers must use only approved traditional, contemporary, or locked full/limited service curbside mailboxes for new installations or replacements. When new delivery is established or extended, postmasters must ensure that customers use delivery equipment that is approved by the postmaster general. However, a customer may use a custom-built curbside mailbox if the local postmaster gives prior approval and the mailbox conforms generally to the same requirements as approved manufactured curbside mailboxes relative to the flag, size, strength, and quality of construction.

Carriers on motorized city routes may continue to serve mailboxes that are designed primarily for use by customers receiving door delivery and that have been erected and served under previous regulations (see Exhibit C on the following page). However, carriers should advise customers that they may use only approved curbside mailboxes when replacing these types of mailboxes. A list of approved manufacturers of traditional curbside mailboxes appears on pages [23–28](#).

For motorized city routes, and where the use of street names and house numbers is authorized on rural and contract delivery service routes, the mailbox must display the number on the side of single mailboxes or on the door of grouped mailboxes. If the mailbox is on a street other than the one on which the customer resides, the street name and house number must be on the mailbox. When rural and contract delivery service route customers box delivery route customers have assigned box numbers, the numbers must appear on the side of single mailboxes or on the doors of grouped mailboxes, visible to the approaching carrier. The street number, box number, and any other address information must be inscribed in contrasting color in neat letters and numerals not less than 1 inch in height. In all instances, placing the owner's name on the box is optional.

Exhibit A

Exhibit B

Exhibit C

Motorized city, rural, and contract delivery service route customers should be encouraged but not required to group mailboxes whenever practical, especially where many mailboxes are located at or near crossroads, service turnouts, or similar locations. Customers should also paint mailboxes and supports/posts and keep them rust-free. Advertising on mailboxes and mailbox supports is prohibited.

In areas where snow removal is a problem, the Postal Service suggests using a semi-arch or extended arm-type support (see Exhibit D), which allows snowplows to sweep near or under mailboxes without damaging supports and provides easy access to the mailboxes by carriers and customers.

Exhibit D

Generally, mailboxes should be installed at a height of 41–45 inches from the road surface to the bottom of the mailbox or point of mail entry. Mailboxes are set back 6–8 inches from the front face of the curb or road edge to the mailbox door. However, because of varying road and curb conditions and other factors, the Postal Service recommends that customers contact their local Post Office™ before erecting or replacing mailboxes and supports.

Location

Customers must place mailboxes on motorized city, rural, and contract delivery service routes so a carrier can safely and conveniently serve them without leaving his or her vehicle. The mailboxes must be on the right-hand side of the road in the carrier's travel direction in all cases where traffic conditions make it dangerous for the carrier to drive to the left to reach the mailboxes, or where doing so would constitute a violation of traffic laws and regulations. *Postal Operations Manual* (POM) 632.6 specifies postal regulations regarding locations for apartment houses and other multiple unit dwellings. On new rural and contract delivery service routes, all mailboxes must be on the right-hand side of the road in the direction of the route line of travel. Mailbox placement must conform with state laws and

highway regulations. City motorized, rural, and highway contract box delivery route carriers are subject to the same traffic laws and regulations as other motorists. Customers must remove obstructions, including vehicles, trash cans, and snow, that impede safe and efficient delivery. Except when a mailbox is temporarily blocked, carriers must have access to the mailbox without leaving the vehicle unless authorized to dismount.

Mailbox Supports

The Postal Service does not regulate mailbox supports in any way except for purposes of carrier safety and delivery efficiency. Posts and other supports for curbside mailboxes are owned and controlled by customers, who are responsible for ensuring that posts are neat and adequate in strength and size. Heavy metal posts, concrete posts, and miscellaneous items of farm equipment, such as milk cans filled with concrete, are examples of potentially dangerous supports. The ideal support is an assembly that bends or falls away when struck by a vehicle. Post or support designs may not represent effigies or caricatures that disparage or ridicule any person. Customers may attach the box to a fixed or movable arm. POM 632.5 specifies postal regulations regarding construction and placement of mailboxes and supports on motorized city, rural, and contract delivery service routes.

The Federal Highway Administration (FHWA) has determined that wooden mailbox supports no larger than 4 inches by 4 inches, or a 2-inch diameter standard steel or aluminum pipe, buried no more than 24 inches, should safely break away if struck by a vehicle. According to FHWA, the mailbox must also be securely attached to its post to prevent separation if struck. See Exhibits E (page 24) and F (page 25) for examples of mailbox mountings and supports suggested by the FHWA.

Make Your Mailbox Green

There are many things to consider when selecting your curbside mail receptacle. Your mailbox may be where your Postal Service carrier places your mail at the time of delivery, but what about your packages?

A mail receptacle that can accommodate small packages will protect them from inclement weather and offer a safe haven for packages that may otherwise be left at your doorstep.

A mail receptacle large enough for packages to be placed inside can also be a convenient area for your carrier to pick up your outgoing packages through the USPS free Package Pickup program. By saving a trip to the Post Office, you conserve gasoline, helping your wallet as well as the environment.

Cluster Box Units and All-Weather Parcel Lockers

During Mailbox Improvement Week, postmasters and managers or their designees must review all cluster box units (CBUs), neighborhood delivery and collection box units (NDCBUs), and outdoor parcel lockers (OPLs) in their delivery areas to identify any hazards or irregularities, and they must record the results of the review.

Note: NDCBUs are not approved for use in new delivery or as replacement units for existing NDCBUs — even when privately purchased. Postal Service officials must not install Arrow locks in new NDCBUs or initiate delivery to NDCBU units installed as replacements.

Upon completing the reviews, keep a copy in your local office and send consolidated copies to the designated growth coordinator for each district. Use PS Form 8143,

Equipment Checklist and Followup Review, in conducting and recording the reviews. PS Form 8143 is available in this *Postal Bulletin* (see Exhibit G on page 55), PS Form 8143 is also available on the PolicyNet Web site at <http://blue.usps.gov/cpim/>; click on *Forms*. Employees conducting the reviews must complete PS Form 1624, *Delivery/Collection Equipment Work Request*, for any equipment that poses a safety hazard to postal customers or employees. You can order PS Form 1624 from the MDC using touch-tone order entry (see page 21 for MDC ordering instructions) or download it from the PolicyNet Web site at <http://blue.usps.gov/cpim/>. The relevant ordering information for PS Form 1624 is as follows:

PSIN:	PS1624
PSN:	7530-01-000-9392
Unit of Issue:	SE
Quick Pick #:	N/A
Bulk Pack Quantity:	10,000
Minimum Order:	100

Equipment Review Procedure

Employees must use the CBU and parcel locker equipment checklist and followup review procedure when examining the condition of CBUs, NDCBUs, and OPLs. You must:

- List the 5-digit, USPS-marked postal ID number of the unit. This is usually visible on the front or side of the body or pedestal. If a postal ID number is not available, list the unit location, equipment type, and manufacturer in the left-hand column. If you are able to access the back of the unit, list the unit's vendor-supplied serial number. You *must* distinguish the type listed as an NDCBU or CBU.
- Assign each checklist item one of the following ratings:
 - OK — Equipment does not need attention for this item.
 - X — Equipment needs attention for this item.
 - NA — Item does not apply to this particular piece of equipment.
- When examining the equipment, use the instructions below to complete PS Form 8143:
 - Check equipment. All delivery and collection equipment should be straight, vertical, and firmly mounted. For safety concerns, please ensure that customer compartments are facing **away** from the street (refer to the safety note below) or are oriented such that safe collection and delivery of the mail may occur. Visually verify that four bolts/nuts are firmly in place securing the pedestal to the concrete pad and to the delivery equipment.

Apply hand pressure to the top edge of the unit from the front side. While the unit may flex under the load, verify that the pedestal stays firmly mounted to the concrete and that the unit does not separate from the pedestal.

Note: For safety concerns, please ensure that customer compartments are located such that customers do not have to stand in the street to access their mail or that letter carriers must stand in the street to deliver mail. Consider all factors of equipment location including setbacks from streets that may allow customer compartments to face the road, but be of such a distance so as not to affect the safe delivery and collection of mail.

- b. Check visible welds. Make note of cracked, broken, or rusted welds. For NDCBUs and OPLs only, tap the pedestal with a lightweight hammer, especially along the seams, to check for corrosion from the inside out or perforated corrosion.
- c. For CBUs and NDCBUs, observe whether the carrier access door is locked and secure. Open it and observe whether it is bowed or warped and whether the door and locking bar operate smoothly. With the carrier access door open, check whether restraining devices prevent the door from blowing closed. These devices, which may have to be set manually, should be serviceable.
- d. Ensure that the Arrow lock operates smoothly and easily and that the mounting hardware is tight. For NDCBUs, CBU parcel doors, and OPLs, the protective cover that shields the Arrow lock from customer tampering must be serviceable and firmly attached.
- e. For OPLs, the cover that protects the Arrow lock from theft must be secured with the proper quantity of tamper resistant screws.
- f. Ensure that all customer access doors are present, closed, and locked with no visible damage or signs of forced entry. Check that customer door numbers are legible.
- g. Ensure that the exterior surface of the unit is free from rust and graffiti.
- h. Examine the unit. Check it for defects or damage and whether it reflects a proper Postal Service image.
- i. Check whether the unit and any protecting structure appears watertight and in good repair. Check whether there are any noticeable watermarks inside the unit or any wet mail.

j. Note any other conditions that require attention. Also, look for signs of vandalism such as pry marks on doors and locks.

4. Record the results of the inspection on the checklist.
5. Submit the completed PS Form 1624 for each unit reviewed to the maintenance office responsible for Centralized Delivery Equipment installation or repair in the area.

Carriers must note equipment deficiencies and report them to the postmaster, supervisor, or designee. The postmaster or designee must then submit PS Form 1624 reporting the equipment defects. In addition, carriers should complete PS Form 1767, *Report of Hazard, Unsafe Condition, or Practice*, for items that pose an immediate threat to safety, such as an improperly secured or leaning NDCBU/CBU. You can order PS Form 1767 from the MDC using touch-tone ordering procedures (see page 21). The relevant ordering information for PS Form 1767 is as follows:

PSIN:	PS1767
PSN:	7530-01-000-9422
Unit of Issue:	SE
Quick Pick #:	141
Bulk Pack Quantity:	1000
Minimum Order:	25
Price:	\$.0625

The postmaster or supervisor must immediately notify by telephone the office responsible for repair of reported hazards. The postmaster or supervisor must follow up to ensure that the work is satisfactorily completed and documented. The office responsible for repair should use its local buying authority to accomplish the repairs.

In January of 1999, the Postal Service announced that NDCBUs cannot be installed for delivery of mail beginning in FY 2000. As previously stated, there are no waivers granted for this policy. Place all orders for CBUs and OPLs against the national contracts listed below. Use eBay to place all orders.

For eBay ordering instructions, go to the Postal Service Intranet at <http://blue.usps.gov>. In the left-hand column, click *eBuy*, then *Training*. You may also call 800-USPS-HELP for additional help.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word "USPS" repeated.
 - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <http://www.usps.com/missingmoneyorders/security.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Delivery (Continued)

The use of USPS-STD-4C boxes is primarily intended for new construction and not as a means of retrofitting existing complexes. However buildings undergoing significant renovations or rehabilitations may be required to convert to wall-mounted receptacles that are USPS-STD-4C compliant. If these renovations include significant structural changes and present an opportunity for more complete makeovers, the builders should include 4C receptacles. Buildings that are simply remodeling or changing the outward/surface appearance of the lobby are *not* considered examples of renovations that would trigger the use of 4C receptacles.

If you have additional questions regarding these timelines, please contact your area or district growth coordinators for further information or send an e-mail to www.wallmountedreceptacles@usps.gov.

Apartment House Mail Receptacles — Horizontal and Vertical

Note: The Postal Service has revised USPS-STD-4B. The new standard is USPS-STD-4C.

For replacement of existing equipment, security enhanced versions of both horizontal and vertical boxes are now available. They are referred to as “USPS-STD-4B+” boxes and are designed to fit cleanly into buildings with old USPS-STD-4B boxes.

USPS-STD-4B+ boxes are approved for Postal Service mail delivery for existing indoor installations or existing protected outdoor locations. However, the Postal Service does not approve the purchase of this equipment for new installations and will not install Arrow locks in any such equipment. You may only order *replacement* parts for Postal Service-owned equipment that was installed in the past.

Licensing

USPS has developed a licensing program to create a standardized customer compartment lock (O910A&B) used in centralized delivery equipment. This standardization assures a level of security to protect the security and sanctity of the mail. A licensing program has also been developed for the cluster box unit (CBU), which, when combined with the O910 lock, surpasses a required security level. Commercial manufacturers who wish to become licensed suppliers of either the O910 lock (USPS-L-1172C) or the CBU (USPS-B-1118G) should contact the office below for application procedures.

State and Local Regulations

Some states have enacted laws that are more stringent and specific about the type of mailbox that may be used, the post or support that must be used to mount the

mailbox, and the location of the delivery equipment. Regulations and recommendations published in this notice might not reflect appropriate requirements for your area. When providing guidance to the general public concerning mailbox placement and replacement, advise them not only of Postal Service regulations but also of any mailbox regulations that you know have been enacted by state or local authorities. Publicity

Postmasters must give these guidelines and suggestions maximum local publicity. Consult your area Public Affairs and Communications representative for further guidance and assistance in publicizing Mailbox Improvement Week. The news release on page [54](#) is provided for postmasters to distribute to daily or weekly newspapers or broadcast stations in their delivery area to promote Mailbox Improvement Week. Retype the press release, double-spaced, on Postal Service letterhead. You may also find it helpful to alert the media to locations of particularly interesting mailboxes in your delivery area.

Responsibility

Motorized city, rural, and highway contract box delivery route carriers must cooperate to ensure the success of this endeavor and later report the results to the postmaster. In addition, postmasters should use the most up-to-date list of manufacturers and mailbox suppliers when providing motorized city, rural, and highway contract box delivery route customers with information about the type of box to install.

Mailbox Improvement Week Arrives in Time for Spring Cleaning

The U.S. Postal Service® is asking all **[city name]** homeowners to inspect and repair their mailboxes during Mailbox Improvement Week, May 19–25, says Postmaster **[full name]**.

“Repairing suburban and rural mailboxes improves the appearance of our community and makes delivering and receiving mail safer for our carriers and customers,” **[last name]** says.

The Postal Service makes this annual request because of the wear and tear that occurs to mailboxes every year. “This is especially important after the effects of last winter,” **[he/she]** adds **[if applicable]**.

Some of the typical activities that may need to be done include:

- Replacing loose hinges on a mailbox door.
- Repainting a mailbox that may have rusted or started peeling.
- Remounting a mailbox post if loosened.
- Replacing or adding house numbers.

“If a homeowner plans to install a new mailbox or replace a worn one, he or she must use only Postal Service–approved traditional, contemporary or locking full/limited service mailboxes,” said **[last name]**. “Customers should be careful when purchasing curbside mail receptacles because the use of unapproved boxes is prohibited. Customers may use a custom-built mailbox, but they must consult with my office to ensure it conforms to guidelines applying to flag, size, strength, and quality of construction.”

For more information on the use of names or numbers on mailboxes, or answers to any other questions, contact Postmaster **[full name]** at **[phone number]** or call your local postmaster at **[phone number]**.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. If available, the sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of those postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL POSTMARKS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP+4® CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP+4 code).

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

How to Order the First Day of Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first day of issue postmarks by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, or at The Postal Store® Web site at www.usps.com/shop.

Traditional Postmarks

Customers should affix the stamps to envelopes of their choice, address them to themselves or others, or provide a self-addressed return envelope with sufficient postage large enough to accommodate the canceled item. Mail the request to the corresponding city of issuance. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers should submit a check, money order, or credit card for payment. After applying the first day of issue postmark, the Postal Service™ will return the envelopes to the customer by U.S. Mail.

All postmark requests should go to the first day of issue city. The first day of issue city Post Office will then forward in bulk all postmark requests to Cancellation Services, Stamp Fulfillment Services, P.O. Box 449992, Kansas City, MO 64144-9992 by respective Post Offices.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16" side seams with no glue on the flap. The maximum size of all digital color postmarks is 2" high x 4" long. Allow

sufficient space on the envelope to accommodate the postmark and do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers should submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of non-specified envelopes results in poor image quality or damage to equipment.

Customers should affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Mail the request for a first day of issue digital color postmark to the corresponding city of issuance. Post Offices will then forward all customer requests for digital color postmarks to: Cancellation Services, Stamp Fulfillment Services, P.O. Box 449992, Kansas City, MO 64144-9992.

After applying the first day of issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail.

How Do I Get Involved?

Participation is by self-nomination only. The program is open to postmasters, executive and administrative schedule (EAS) managers, supervisors, and customer relations coordinators.

A submission must involve the activity only of the participant, not the participant's manager or employee. Participants must submit their own material from their own offices.

Send all submissions directly to:

GOOD NEWS
COMMUNITY RELATIONS
UNITED STATES POSTAL SERVICE
475 L'ENFANT PLAZA SW RM 10541
WASHINGTON DC 20260-3100

When Can I Participate?

The annual Good News program starts June 1 of the current year and ends May 31 of the following year. Headquarters Public Affairs and Communications must receive all submissions within 30 days of an event or media coverage.

How Are Winners Selected?

The Point System

Headquarters Public Affairs and Communications uses a cumulative point system to determine the winners. Each documented and qualifying activity, event, newspaper clipping, and Postal Service appearance noted above will count as one point. Headquarters Public Affairs and Communications verifies entries. When more than one radio or television station airs a story, the participant will receive one point for each station. Because this is an award for individual recognition, only participants involved in the activities will receive points, and not their employees, coworkers or supervisors.

The point system evaluates participants on six levels divided into two categories, postmaster and non-postmaster. Participants must meet the minimum points required for their category and level. The following table shows the six levels of point requirements.

Level	Minimum Points
<i>Non-Postmaster</i>	
EAS managers/supervisors	25
Customer relations coordinator	55
<i>Postmaster</i>	
Levels 16 and below	35
Levels 18 and 20	45
Levels 21 and 22	55
Levels 24 and above	65

Final Selection

Within each area, participants with the highest number of points in the six levels will be selected as winners. Each area may have one winner per level and so may have up to six winners. Headquarters notifies district managers of all winners before it notifies the winners directly. All decisions are final.

Limit on How Many Times a Person Can Win

A participant who has received *The Benjamin Award* three consecutive times is not eligible to compete for the two consecutive years immediately following the third win.

Awards Presentations

The awards are presented at the national conventions of the League of Postmasters, the National Association of Postmasters of the United States (NAPUS), and the National Association of Postal Supervisors (NAPS). If a winner is not scheduled to attend one of these conventions, Headquarters Public Affairs and Communications will send *The Benjamin Award* to the field Public Affairs and Communications manager who will coordinate a presentation ceremony with the appropriate officials.

How Do I Prepare a Submission?

Submit entries that are local and pertain to the area in which you work. Entries must include clippings or narrative descriptions plus your contact information. Your entries must mention your name or your Post Office and clearly must show that you are promoting the Postal Service. For newspaper articles, submit either the original or a copy of the article showing the date, name, city, and state of the newspaper. For appearances at the Rotary Club, Chamber of Commerce, and similar meetings, you must provide a contact and telephone number for verification.

All entries must include a completed submission cover sheet, which you can get from Headquarters Public Affairs and Communications via fax or e-mail, or you can get the submission form from *Postal Bulletin* 22180 (5-11-06, page 18). Use one submission sheet to cover all the entries sent in one envelope.

Lynn Hecker
Postmaster
Ellendale, MN

Lynn went the first 14 years of her career without using a single day of sick leave. But in 1998 she was diagnosed with cancer in her tonsil. Between surgery and radiation she was forced to miss 6 months of work. She has since had 2 other shorter episodes with cancer. Her accumulated sick leave has covered all of her absences. Ironically, when she was first diagnosed in 1998, her husband was injured and also off the job for a 6-month period. "It's just incredibly fortunate that we had help from our employers," she says. "Otherwise it would have been devastating for us financially."
