Election Mail and Political Mail Overview

What is Election Mail?

Election Mail is any item mailed to or from authorized election officials that enables citizens to participate in the voting process, such as ballots, sample ballots, voter registration cards, absentee voting applications, and polling place notifications.

What is Ballot Mail?

Ballot Mail is a subset of Election Mail. It consists of any mailpiece sent to or from an authorized election official containing a live ballot that may be used to cast a vote in an election. Ballot Mail sent to a voter is often referred to as “outbound” Ballot Mail, whereas Ballot Mail sent from a voter is called “return” or “inbound” Ballot Mail.

What is Political Mail?

Political Mail is any material mailed for campaign purposes by a registered political candidate, campaign committee, or committee of a political party, as well as any material mailed by a political action committee or organization engaging in issues advocacy or voter mobilization.

2026 Election Mail and Political Mail Plan

The Postal Service 2026 Election and Political Mail Plan coordinates strategy with key organizational priorities. The plan objectives are to:

- Educate and inform the public on proper mail handling, key dates, and operational guidelines for Election Mail and Political Mail.

- Reinforce the message that the Postal Service is deeply committed to its job of delivering Election Mail, especially Ballot Mail.
- Ensure the correct use of the Official Election Mail logo. It may be used on all Election Mail, including Ballot Mail created for federal, state, and local government elections.
- Inform election officials that Ballot Mail will be handled correctly. Educate the officials on what to expect when using the mail so they can ensure ballots are mailed and returned by their state’s deadline.
- Remind election officials and their mail service providers (MSPs) of the importance of using Service Type IDentifiers (STIDs), especially for Ballot Mail, to improve mailpiece visibility within the automation environment.
- Ensure Postal Service employees know that they must always promptly and efficiently handle Election Mail with equal care and attention.
- Ensure the correct use of Tag 191, *Domestic and International Ballots*. Postal Service employees must correctly identify and promptly process this mail. Tag 191 may not be used for sample ballots.
- Ensure the correct use of Tag 57, *Political Campaign Mailing*. Political Message Mail (mailings from certain groups, including issue advocacy or voter mobilization) and Political Campaign Mail (mailings from certain groups or individuals related to a candidate, campaign, or referendum) may both use Tag 57.

Key Messages

Throughout the 2026 election cycle, it’s important to keep the following in mind:

- The Postal Service is committed to fulfilling its role in the electoral process when policymakers choose to use the mail as part of their election systems or when voters choose to use our services to participate in an election. The Postal Service ensures the dependable and timely delivery of Election Mail.
- The Postal Service takes pride in the U.S. Mail® as a secure, efficient, and effective means for citizens to participate in the electoral process.
- Voters can trust the Postal Service to deliver Ballot Mail in a timely manner.
- The Postal Service offers a state-by-state outreach program to ensure election boards, political candidates, and mailers are aware of the appropriate procedures and important deadlines to help ensure the proper processing and delivery of Election Mail and Political Mail.

- In addition to any state or local rules, requirements, and recommendations, the Postal Service recommends that election offices consider providing applicable Postal Service mailing recommendations in their voter communications to ensure that individuals who wish to use the mail to vote know how to do so successfully. See “Key Voter Messages” below.
- A well-designed mailpiece can support timely delivery and ensure compatibility with the Postal Service’s mail processing equipment and operational capabilities. Thus, we strongly recommend that election offices work with a mailpiece design analyst (MDA) before designing and printing any mailpieces for use in their election system. Customers can receive assistance from an MDA by submitting a design review request at electionmail.usps.com/s/election-mail-review.
- The Postal Service has a variety of ways to enhance the visibility of Election Mail (especially Ballot Mail) and Political Mail. These recommendations include physical indicators such as red and green tags and the Official Election Mail logo as well as digital indicators that communicate with our processing system like barcodes, checkboxes, and dedicated Service Type Identifiers (STIDs).
- All U.S. Mail is protected by more than 200 federal laws enforced by the United States Postal Inspection Service® (USPIS®), the Postal Service’s law enforcement arm. The Postal Service employs a robust and proven process to ensure the proper acceptance, processing, and delivery of Election Mail.
- The USPIS monitors Election Mail as it moves through the postal network to prevent, identify, and resolve any issues that might interfere with its secure and timely delivery.
- The U.S. Mail remains a secure, efficient, and effective means for citizens when policymakers choose to use the mail as part of their elections systems or when voters choose to use our services to participate in an election.

Key Voter Messages — Receiving and Returning Ballot Mail

Individuals who opt to vote by mail must understand their local jurisdiction’s rules and requirements for participating in an election, including rules and deadlines concerning the timely submission of ballots. Voters can contact their local election office for questions about processes and policies specific to their state. Voters can find their state and local election offices here: usa.gov/state-election-office.

The Postal Service’s mailing recommendations for voters include the following:

- In jurisdictions that require eligible voters to request a ballot in order to receive one through the mail, we recommend that domestic, non-military voters request their ballot as early as their jurisdiction allows. Not all jurisdictions require eligible voters to request a ballot in order to receive one; check your local and state voting requirements.
- For domestic, non-military voters who choose to use the mail to return their completed ballot, the general recommendation of the Postal Service is that they **mail their completed ballot before Election Day, and at least 1 week before the deadline by which their completed ballot must be received by the election office.** Some states may recommend allowing even more time for mailing completed ballots. In addition, some states require all ballots (including mail-in ballots) to be received by the election office by a specified deadline, while other states may accept ballots received after that deadline as timely if they were mailed and postmarked by a specific date.
- Voters must keep in mind the time required for both legs of mail delivery — to the voter and back to election office — when deciding how to participate in an election.

Additional Voter Messages on Postmarks for Return Ballot Mail

- Each state establishes by law the rules and requirements for ballot submission, including submission deadlines and the role, if any, that postmarks play in determining whether a ballot was timely.
- The Postal Service does not postmark or “cancel” every piece of mail in the system. The primary purpose of cancellation is to ensure that postage cannot be reused, and some categories of postage are pre-canceled before they enter the mailstream.
- However, the Postal Service tries to ensure that every piece of Ballot Mail returned by voters receives a postmark, regardless of whether it is mailed with postage pre-paid by election officials or with a stamp affixed by the voter.
- While we instruct our employees throughout the country on this practice, we acknowledge that there will always be rare occurrences where a mailpiece does not receive a legible postmark. Election officials are advised that the use of automation-compatible, letter-sized envelopes increases the likelihood that a mailpiece will receive a legible postmark.

- Also, while our postmarking practices have not changed, we have made adjustments to our transportation operations that will result in some mailpieces not arriving at our originating processing facilities on the same day that they are mailed. Because postmarks are generally applied at those processing facilities, this means that the date on the postmarks applied at those facilities may not necessarily match the date of mailing.
- **A voter can ensure that a postmark is applied to his or her return Ballot Mail envelope, and that the date on the postmark matches the date of mailing, by visiting a Postal Service retail location and requesting a manual postmark at the retail counter when dropping off the ballot for mailing.** When asked, the retail associate will apply a manual postmark free of charge upon accepting custody of the mailpiece.
- As of December 2025, the Postal Service added a new section, 608.11, to the Domestic Mail Manual (DMM) that formally defines the postmark, its intended use, and the circumstances in which it is applied. For further postmarking guidance and understanding, review the fact sheet included in this kit on DMM 608.11, which is included in Kit 600 at about.usps.com/kits/kit600/welcome.htm, or see DMM 608.11: *Postmarks and Postal Possession*, on Postal Explorer® at pe.usps.gov/text/dmm300/608.htm.

Election Mail

Ballot Mail

Each election cycle presents a different set of parameters for ballot creation and for the size and weight of the return Ballot Mail envelope. As a result, many voters do not know the correct amount of postage required to return their ballots by mail. Election officials must consult with a Manager Customer Relations to determine the proper postage required for outbound Ballot Mail sent to voters and for voters mailing back return Ballot Mail to election officials.

Election officials are required to indicate in a prominent location the proper amount of First-Class Mail® postage that must be applied to balloting materials for any election, whether sent in hard copy or electronic formats. An exception may apply in certain circumstances for balloting materials for military and overseas voters or where postage is prepaid. See Domestic Mail Manual (DMM 703.8.3®) to learn more about the postage marking requirements.

Military and Overseas Voting

Key Messages

Even in times of war, the Postal Service has delivered the most fundamental symbol of democracy — a ballot — to those who serve in the U.S. Armed Forces as well as other overseas non-military voters. The key messages here are:

- Any American voter living overseas can mail his or her completed ballot back to the United States free of charge at the nearest American embassy, consulate, or Diplomatic Post Office (DPO) under the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA). UOCAVA is a federal law that provides uniformed and overseas citizens the ability to register and vote absentee in elections for federal offices.
- If an overseas voter has authorized access to a military base, he or she can mail a ballot free of charge at the nearest APO or FPO.
- For the 2026 general election, special procedures for APO/FPO/DPO absentee ballots are in effect between September 1 and November 30. During this time, the Postal Service will provide special handling for dispatch via the International Service Centers (ISCs).
- The Postal Service recommends military voters go to fvap.gov/eo/overview for return Ballot Mail dates.

APO/FPO/DPO Outbound Ballot Mail

The Postal Service and the Military Postal Service Agency collaborate to provide special handling of Ballot Mail sent to absent uniformed services voters with UOCAVA-authorized APO/FPO/DPO addresses. The Postal Service is committed to ensuring that everyone who votes by mail experiences an efficient process.

Here is a summary of special procedures for Ballot Mail addressed to APO/FPO/DPO locations only:

- Election officials must mail absentee ballots at least 45 days before the November 3, 2026, election.
- Local election offices must segregate military Ballot Mail to the Chicago ISC and the Miami ISC gateways. At ISCs, Ballot Mail receives special handling, including accelerated sortation, special tray identification, and priority transportation.
- APO/FPO/DPO destined Ballot Mail will be sent from local Post Office™ locations to the nearest Processing and Distribution Center for further handling.
- Postal Service employees will identify trays or containers of Ballot Mail using Tag 191, *Domestic and International Ballots*, and present them to the Post Office facility.

APO/FPO/DPO Return Ballot Mail

Absent overseas uniformed services voters with UOCAVA-authorized APO/FPO/DPO addresses can return Ballot Mail via Priority Mail Express® using Label 11-DOD, *DOD Express Mail Label Absentee Ballot*. The label includes “Waiver of Signature” and “Guaranteed by End of Day” endorsements, so absentee ballots can be delivered the day they arrive at the destination Post Office™.

Label 11-DOD

Familiarize yourself with the following operational guidelines for Label 11-DOD:

- The Military Postal Service Agency distributes Label 11-DOD overseas.
- Label 11-DOD is only for voted absentee ballots from overseas U.S. military and authorized UOCAVA civilian citizens.
- The label may only be used by eligible voters when the return absentee ballot is mailed from a Military Post Office (MPO) or DPO overseas.
- To use Label 11-DOD, overseas U.S. military and authorized UOCAVA civilian citizens must return their ballots via APO, FPO, or DPO locations.
- Eligible voters may use Label 11-DOD on any size Ballot Mail envelope and must always affix it in the upper-right corner.
- Voters keep part of the label in order to use the tracking number to track their Ballot Mail.
- At ISCs, Ballot Mail receives special handling, including accelerated sortation, special tray identification, and priority transportation. Ballot Mail arrives by international transportation at one of the Postal Service gateway offices for Customs clearance and initial processing at select designated offices.
- At these facilities, the mail is processed by postal automation equipment in an initial domestic sort for distribution throughout the United States.

Official Election Mail Logo

The Official Election Mail logo is a unique registered trademark designed exclusively for inclusion in the design of Election Mail.

The Official Election Mail logo may be used on any mailpiece that is created by or on behalf of an election official and that is mailed to or from a citizen of the United States for the purpose of participating in the voting process. This includes ballots, sample ballots, voter registration cards, absentee voting applications, and polling place notifications. The logo may be used on qualifying mailpieces in all classes of mail and all processing categories; however, it is not intended to substitute for postage.

When the Official Election Mail logo appears on a mailpiece, voters recognize the mail as important and distinct from partisan political mailings. Additionally, the logo serves to identify Election Mail for Postal Service workers and distinguishes it from the millions of other mailpieces that are processed daily.

Election Mail Checkboxes

The Postal Service encourages election officials to use all available tools to improve the visibility of their Election Mail within the postal network. In particular, it strongly recommends the use of the Election Mail Checkboxes in *Postal-One!* processing to get increased visibility of Election Mail in the mailstream. In July 2024, the existing Election Mail Checkbox was separated into two boxes: Election Mail – Official Ballots and Election Mail – Non-Ballot Materials.

Please check the “Election Mail – Official Ballots” or “Election Mail – Non-Ballot Materials” box for each mailing presented for acceptance. This provides the Postal Service with important insight into Election Mail and Ballot Mail volume by entry point that may help with future Postal Service capacity planning.

The Postal Service provides free means of electronic postage statement submission through the IMsb Tool and Postal Wizard. There are also approved third-party software options available on PostalPro at postal-pro.usps.com/node/248.

Serialized Intelligent Mail Barcodes

A serialized Intelligent Mail® barcode (IMb®) is a 65-bar Postal Service barcode used to sort and track letters and flats. The barcode simplifies data-gathering by consolidating information for multiple Postal Service identifiers into one comprehensive location. Using a serialized IMb also expands mailers’ ability to track individual mailpieces and gain greater mailstream visibility.

Uniquely serialized IMbs facilitate the tracking of individual ballots to and from individual voters. A serialized IMb can be applied to most Election Mail and is critical for using IV-MTR service.

The IV-MTR application provides information about when and where the Postal Service sorts a mailpiece on mail-processing equipment. A serialized IMb can also be used for address correction services: manual address correction notices, ACS, OneCode ACS®, and Intelligent Mail Full-Service ACS™.

Ballot Mail Service Type Identifiers

Service Type Identifiers (STIDs) are unique 3-digit codes that indicate the service type, mail class, and address correction service (if any), for an individual mailpiece, and are a part of the IMb. As part of an IMb, STIDs offer mailers near-real-time tracking visibility on both outbound and return mailpieces. STIDs also provide the Postal Service with enhanced tracking capabilities that allow us to quickly identify and process on-hand ballots throughout the mail network.

These specifically designed STIDs have proven instrumental in identifying and tracking mail.

Note that the Ballot Mail STIDs are not for all Election Mail. For Election Mail that is not a ballot (e.g., voter registration applications, polling place locations, ballot applications, and sample ballots), use the appropriate STID for the mail class, as well as Address Correction Service (ACS™) and IV-MTR services desired that are identified for First-Class Mail or USPS Marketing Mail in the STID Table.

To assist election officials and their mail service providers with selecting an appropriate Election Mail and Ballot Mail STID for their outbound mailings, the Postal Service offers the Election Mail and Ballot Mail STID Finder: postalpro.usps.com/stid-tool. The tool asks users to answer a series of yes/no and multiple-choice questions related to the main attributes that determine which STID may match the mailer's needs. It is important to bear in mind that the tool's results are suggestions only. This tool ONLY supports Election Mail and Ballot Mail. All other types of mailings must refer to the full list of STIDs available on Postal Pro postalpro.usps.com/mailing/service-type-identifiers.

Tag 191

Tag 191, Domestic and International Ballots, may be used by election officials to identify trays and sacks of Ballot Mail destined for either domestic or international addresses. The green tag provides greater visibility to containers of Ballot Mail as they enter processing and distribution operations. An updated version of Tag 191 (shown here) will be entered into circulation this election year. The tag dated April 2025 features the same text on both sides and has English and Spanish translations, whereas the tag dated July 2007 had different faces and was written only in English. Both versions of the tag remain valid. Please exhaust the existing tags on-hand. Business Mail Entry Units (BMEUs) will continue to accept and affix both versions of the tag since they are reusable.

Tags are available at your local Business Mail Entry Unit (BMEU), which can be found at postalpro.usps.com/node/1623. To order online, use the order form linked here: about.usps.com/forms/ps1910.pdf.

The tag cannot be used to identify containers of other types of Election Mail, such as sample ballots, voter registration notices, absentee voting applications, or polling place notifications. Tag 191 also may not be used for Political Mail.

Tag 191

Mailpiece Design Analysts (MDAs)

The Postal Service strongly recommends an MDA review all Election Mail ballot envelopes and other Election non-ballot mailpieces before printing. We recommend that election officials consult an MDA each year to review new and previously approved mailpiece designs. MDAs are experts on Postal Service mailpiece design standards and can provide guidance on pieces that meet the Postal Service's requirements, answer questions about mailpiece design, give advice on evaluating mailpieces for automation discounts, and provide technical assistance on the Postal Service's mailpiece standards.

For assistance, election officials can submit a design review request at electionmail.usps.com/s/election-mail-review or call 877-672-0007 (select option 3 for mailpiece design). Hours of operation are Monday through Friday, 7 A.M. to 7 P.M. Central Time (closed federal holidays). Additional mailpiece design information is available online at postalpro.usps.com/mailing/mailpiece-design-analyst-mda-customer-service-help-desk.

Mail Class

The Postal Service continues to recommend that election offices use First-Class Mail for outbound Ballot Mail sent to voters. Using First-Class Mail allows for faster service while maintaining high visibility as the Ballot Mail moves through the mailstream (when used with USPS visibility tools, like serialized Intelligent Mail barcodes). Nevertheless, it has been the longstanding practice of the Postal Service to prioritize Ballot Mail that is entered as USPS Marketing Mail, regardless of the paid class, when capacity permits and when the mailpiece is identifiable as Ballot Mail by green Tag 191 or other Postal Service visibility indicia.

Qualified Business Reply Mail with Intelligent Mail barcode Accounting

Qualified Business Reply Mail™ (QBRM™) is a First-Class Mail service that enables election officials to pay the return postage (including a per piece fee) for Ballot Mail returned by the voter to election offices through the mail.

The reply mail envelopes that election officials distribute must conform to a specific format, including use of a unique ZIP+4® assigned by the Postal Service. QBRM proofs must be approved by the Postal Service and bear an IMb. QBRM can be applied only to automation-compatible cards and letter-size mail weighing up to and including 3.5 ounces.

Approved QBRM mailers can enhance Election Mail processing capability with Intelligent Mail barcode Accounting (IMbA™). IMbA is an automated solution for the counting, rating, invoicing, and billing processes. Customers who participate in IMbA will have their mail processed and invoiced directly from the mailpiece equipment, bypassing manual handling in the delivery office. Invoicing is sent to PostalOne! daily. For more information on QBRM with IMbA, see DMM 505.1.6 at pe.usps.com and the information sheet on Postal Pro at postalpro.usps.com/node/7399.

Informed Delivery

Informed Delivery® is a secure, free, and optional feature that can help election officials connect with voters by providing eligible residential, business, and P.O. Box consumers with a digital preview of their household's incoming mail and the ability to manage their packages all from one location.

Users can view grayscale images of the exterior (addressed side) of automation-processed, letter-sized mailpieces via a morning Daily Digest email or at any time via the online dashboard from your phone, computer, or the Informed Delivery Mobile app.

Nearly 75 million users are already signed up, with an average email open rate exceeding 60 percent. The Postal Service's Informed Delivery feature continues to deliver on its value proposition to election officials by providing the opportunity to reach more voters, target and increase inter-

action with users, encourage responses to voter engagement campaigns, reach customers digitally from their physical locations, and gain more returns on Election Mail campaigns.

A digital preview of the exterior of Election Mail offers benefits to both election officials and voters. Election officials are able to increase voter interaction with their mail and generate faster response rates. At the same time, voters have a more convenient and secure experience because they can see when their Election Mail will arrive. Learn more about Informed Delivery at usps.com/business/informed-delivery.htm.

Political Mail

Political Mail is a powerful way to share accurate campaign messages with voters. In preparation for each election cycle, postal facilities work diligently to complete the following actions:

- Ensure the correct use of Tag 57, *Political Campaign Mailing, for all Political Mail*.
- Inform Postal Service employees that they must promptly and efficiently process and deliver Political Mail.
- Document as Political Mail all qualifying mail that is entered into the mailstream.

Key Messages

Millions of Americans will receive campaign mail asking for their vote on issues or for candidates this year. It's important to note:

- The U.S. Mail is a secure, efficient, and effective means for citizens and campaigns to participate in the electoral process. The Postal Service considers the dependable and timely delivery of Political Mail promoting candidates and issues to be essential to the success of the Political Mail season.
- The best campaign is a multi-channel campaign. For candidates, Political Mail can help them reach constituents directly.
- Mail can reach 100 percent of targeted voters.

- Mail has been tested and is a proven marketing medium.
- Mail prompts action, often through other channels. For more information, go to usps.com/business/political-mail.htm.

Political Mail Tools

The Postal Service offers tools and technologies that help cut through the political noise and ensure that your campaign message is reaching voters at the right time and in the right place. You can use these resources to prepare for continued growth in 2026.

- The Political Mail website (see deliverthewin.com) provides information on key contacts and other valuable resources, and serves as an online platform to promote direct mail through the following materials:
 - Educational articles.
 - White papers.
 - Case studies.
 - Videos.
- Connections to digital content, such as augmented reality, emphasize the link between digital and hard copy content as a means to extend and increase the effectiveness of political messaging. Augmented reality mailpieces promote campaign messages in a way that engages voters.
- Postal Service webinars highlight key political industry topics.
- The Postal Service has sponsorship agreements with the American Association of Political Consultants to help promote the use of mail early and often in the political arena. Activities include:
 - Attending events and co-sponsored webinars.
 - Advertising and white paper development and placement.
 - Direct meetings with political operatives.

Tag 57

Tag 57, *Political Campaign Mailing*, is a red container tag used to identify Political Mail upon entry to the mailstream. Tag 57 can be used to identify:

- Political Campaign Mailing by a registered political candidate, campaign committee, and committee of a political party.
- Political Message Mailing by a PAC, super-PAC, or other organization engaging in issue advocacy or voter mobilization.
- Under 39 U.S.C. 3632(e)(2) and Domestic Mail Manual 703.1.3, a political committee is an organization that, by virtue of the bylaws of a political party, is responsible for the day-to-day operation of such political party at the national or state level.

Tag 57

Political Campaign Mail Checkbox

In addition to adding red Tag 57 at mail entry, mailers must check the “Political Campaign Mailing” box when presenting Political Mail to the Postal Service for processing. This simple step can help with capacity planning and enhance visibility of Political Mail within the postal network.

All domestic commercial mailings must use an approved electronic method to transmit a postage statement to the PostalOne!® system.

The Postal Service provides free means of electronic postage statement submission through the IMsb Tool and Postal Wizard. There are also approved third-party software options available on PostalPro at postal-pro.usps.com.

Political Mail Service Type Identifiers

The Postal Service provides customized STIDs specifically for Political Mail. These have proven instrumental in identifying and tracking Political Mail on hand and in the mailstream, and specifying the type of address correction service desired (if any). In addition, STIDs increase the visibility of Political Mail within the automation environment and can enhance passive identification and tracking of Political Mail.

When Political Mail STIDs are used as part of an IMb, the associated mailpiece scan data is available via Informed Visibility (IV) reports. To learn more about Political Mail STIDs and view the STID Table, see postal-pro.usps.com/mailing/service-type-identifiers.

FAQs

1. What is Election Mail?

Election Mail is any item mailed to or from authorized election officials that enables citizens to participate in the voting process, such as ballots, sample ballots, voter registration cards, absentee voting applications, and polling place notifications.

To enhance visibility, we recommend use of the Election Mail checkbox, to indicate either official ballot mail or non-ballot materials, Official Election Mail logo, and serialized IMb for outbound ballots.

2. What is Ballot Mail?

Ballot Mail is a subset of Election Mail. It consists of any mailpiece sent to or from an authorized election official containing a live ballot that may be used to cast a vote in an election. Ballot Mail must use the Election Mail – Official Ballots checkbox, Official Election Mail logo, and serialized IMb for outbound ballots, as well as Ballot Mail STIDs and green Tag 191, *Domestic and International Ballots*, to increase visibility in the postal network.

3. What is Political Mail?

Political Mail is any material mailed for campaign purposes by a registered political candidate, campaign committee, or committee of a political party, as well as any material mailed by a political action committee or organization engaging in issues advocacy or voter mobilization.

Political Mail may be sent for any public election — partisan or nonpartisan — for which there is a ballot. Political Mail is identified using red Tag 57, *Political Campaign Mailing*, checking the Political Campaign Mailing box at induction, and by using Political Mail STIDs.

4. What is the Hatch Act?

The Hatch Act (5 U.S.C. §§ 7321–7326) limits certain political activities for most executive branch employees. For example, the law prohibits employees from engaging in political activity while on duty or in the federal workplace. The Hatch Act also prohibits executive branch employees from soliciting or receiving political contributions. Employees who violate the Hatch Act are subject to a range of disciplinary actions, including the following:

- Removal from federal service.
- Reduction in grade.
- Debarment from federal employment for a period not to exceed 5 years.
- Suspension, reprimand, or a civil penalty not to exceed \$1,000.

5. How does the Hatch Act affect the Postal Service and its employees?

The Postal Service is non-political, which means the organization cannot and does not support any political party or affiliation over another. The continued effectiveness of this organization depends on delivering all political mailings without giving the perception that the views of one candidate, political party, or political viewpoint are endorsed over another.

It is the responsibility of all Postal Service employees to know and obey Hatch Act restrictions. This means

that employees may not display political buttons while on Postal Service property or place bumper stickers on a Postal Service vehicle that indicate a preference for a specific candidate, party, or political position. Employees are also urged not to participate in any political discussions where customers are present.

This brief summary does not address all of the Hatch Act prohibitions. For more information about the Hatch Act:

- Go to the Ethics page on *Blue* at blue.usps.gov/uspslaw/ethics;
- Contact the HQ Ethics helpline at 202-268-6346; or
- Send an email message to “Ethics Help” (internal email) or ethics.help@usps.gov.

6. Does return Ballot Mail need to be postmarked by a certain date?

Ballot acceptance rules vary on a state-by-state basis. Some states may accept a ballot that is received after the deadline if it has been mailed and postmarked by a specific date. Other states require all ballots (including mail-in ballots) to be received by the election office by a specified deadline.

Go to your state’s election website for specific information: usa.gov/state-election-office.

7. Will return Ballot Mail be postmarked?

The Postal Service’s longstanding practice is to try to ensure that every return ballot mailed by voters receives a postmark, whether the return ballot is mailed with postage pre-paid by election officials or with a stamp affixed by the voter. We instruct our employees throughout the country about our ballot postmarking processes and procedures and review standard operating procedures for postmarking.

While our postmarking practices have not changed, we have made adjustments to our transportation operations that will result in some mailpieces not arriving at our originating processing facilities on the same day that they are mailed. Because postmarks are generally applied at those processing facilities, this means that the date on the postmarks applied at those facilities may not necessarily match the date of mailing.

A voter can ensure that a postmark is applied to his or her return Ballot Mail envelope, and that the date on the postmark matches the date of mailing, by visiting a Postal Service retail location and requesting a manual postmark at the retail counter when dropping off the ballot for mailing. When asked, the retail associate will apply a manual postmark free of charge upon accepting custody of the mailpiece.

Contacts and Resources

Customer Relations Contacts

Local Managers Customer Relations (MCRs) are designated Postal Service employees who can help coordinate mailings with the Postal Service. MCRs are available to provide resources for designing, preparing, and sending Election Mail. Connect with an MCR by submitting an inquiry at electionmail.usps.com/s/contact-local-mcr.

Election Mail Security and Postal Inspection Service

The United States Postal Inspection Service® (USPIS®) is the federal law enforcement organization assigned to protect the mail, including ballots mailed to and from voters domestically and abroad. Postal inspectors nationwide secure the Postal Service network, and are a primary point of contact for Election Mail security. USPIS serves as a member of the Department of Justice Election Threats Task Force. Postal inspectors respond to any reported criminal incidents involving Election Mail, including mail theft, fraud, and incidents involving threatening, suspicious, or dangerous mail.

To report suspicious mail and Election Mail-related security or criminal incidents, call the USPIS 24-hour law enforcement communications center at 877-876-2455 (select option 4 for Election Mail issues) or go to uspis.gov. Postal inspectors also coordinate with the USPS Office of Inspector General when allegations of Postal Service employee misconduct arise.

USPIS Election Crimes Coordinators

USPIS Election Crimes Coordinators (ECCs) are designated postal inspectors that address Election Mail and other election-related issues, as described above, that require law enforcement attention. ECCs coordinate closely with the Department of Justice, Federal Bureau of Investigation, USPS Office of the Inspector General, and local and state law enforcement, when appropriate. Additionally, ECCs are located throughout the United States and coordinate with local and state election officials in instances where Election Mail is recovered as part of a criminal or security incident.

DMM Revision: Metered Mail Postage Affixed and Date Corrections

Effective November 2, 2026, the Postal Service™ will revise *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®), section 234.2.0, to reflect that the Postal Service has added a standard that allows authorized Combined/Full-Service mailers to affix postage at any applicable First-Class Mail® rate and apply the overpaid-piece postage to the underpaid pieces in the mailing.

Section 604.4.5.1 will also be revised to reflect that the Postal Service allows customers to use an inkjet printer to correct the date on metered barcoded letter and flat-size mailings.

Although these revisions will not be published in the DMM until November 2, 2026, the standards are effective immediately.

date of deposit, city, state, and 3-digit ZIP Code of the mailing office above the address block and below the indicia.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international Postal money orders.
2. Check that the proper security features are present:
 - For the legacy, green Postal Service money orders:
 - a. Green coloring at the top and bottom.
 - b. A U.S. Mail eagle logo in the center.
 - c. A left-side watermark of Benjamin Franklin repeating top to bottom that is only visible when held up to a light source.
 - d. On the right of the Benjamin Franklin watermark, a vertical, multicolored security thread with the letters “USPS®” weaves in and out of the paper.
 - e. Discoloration around the dollar amounts might indicate the amounts were changed.
 - For the new red and blue Postal Service money orders:
 - a. Red and blue ink with subtle design features of an eagle head and an American flag.
 - b. Two watermarks that are only visible when held up to a light source:
 1. A watermark of a Pony Express® rider.
 2. A watermark that reads “United States Postal Service” in a rectangular box.
 - c. A security thread that runs from the top to the bottom of the Postal Service money order, just

to the right of the Pony Express rider watermark. When held to the light, the thread reveals the letters “USPS” alternating right side up and upside down throughout the thread.

- d. A Quick Response (QR) code that directs users to the USPS website to verify the status of money orders using three pieces of information.

- e. Discoloration around the dollar amounts might indicate the amounts were changed.

These features also appear at usps.com/shop/money-orders.htm.

If you or a customer suspects fraud, follow the guidance from the U.S. Postal Inspection Service:

- If you question the validity of a Postal Money Order, use the Money Order Verification System at 1-866-459-7822.
- You can also check the money order status at usps.com/shop/money-orders.htm. Go to “Check Money Order Status” and input the information.
- If you suspect fraud or criminal activity, call the Inspection Service at 1-877-876-2455 at your earliest convenience.

The legacy, green Postal Service money order will stay in circulation until all existing stock is depleted. As of October 1, 2024, USPS no longer sells international money orders. USPS will no longer cash international money orders after September 30, 2025.

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) page following the table).

Acceptance clerks must use the table with the Retail System Software terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing apply.

The entries under “Changes” appear in bold in the following APO/FPO/DPO table:

Investment Board. Assets of the F, C, S, and I Funds are managed externally. The Board currently has contracts with BlackRock Institutional Trust Company, N.A., to manage the F, C, S, and I Fund assets. The F, C, S, and I Funds invest in commingled trust funds, in which the assets of tax-deferred employee benefit plans are combined and invested together. The F, C, S, and I Funds and the BlackRock funds are passively managed index funds.

Future performance of the funds will vary and may be significantly different from the returns shown above. See the *Summary of the*

Thrift Savings Plan for detailed information about the funds and their investment risks. Freely Associated States Restrictions

We list the mailing restrictions for Freely Associated States (FAS) in the Pull-Out section of the *Postal Bulletin*. All FAS Restrictions will be updated periodically.

Freely Associated States

Mail addressed to freely associated states is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The following FAS Restrictions table outlines these conditions as listed by each affected FAS ZIP Code™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) following the table). For more information on available extra services for FAS destinations, see *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)*, part 503.

Acceptance clerks must use the table with the Retail System Software terminal to determine which FAS ZIP Codes are active and which conditions of mailing apply.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears on the following pages. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may get the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to get the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days after the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers who want a postmark must affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4® Code, as listed next to the postmark.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

The following pictorial postmarks have been extended for 30 days:

How to Order the First-Day-of-Issue Digital Color or Traditional Postmarks

Customers have 120 days to obtain the first-day-of-issue postmarks by mail. Each cover must have sufficient postage to meet First-Class Mail® requirements. Customers may purchase new stamps at their local Post Office™, by phone at 844-737-7826, or on The Postal Store® website at usps.com/shop.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service™ recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16-inch side seams with no glue on the flap. The maximum size of all digital color postmarks is 2 inches (vertically) by 4 inches (horizontally). Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a 50-cent charge per postmark at the time of servicing. Customers must submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of

their postmarked items. Address customer requests for digital color postmarks to:

FDOI – (Name of Stamp Issue)

8300 NE Underground Drive, Suite 300

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail®.

Traditional Postmarks

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Address customer requests for traditional postmarks to:

FDOI – (Name of Stamp Issue)
USPS Stamp Fulfillment Services
8300 NE Underground Drive, Suite 300
Kansas City, MO 64144-9900

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers must submit a check, money order, or credit card for payment.

Locally produced items are not authorized. Only merchandise that has been approved and assigned an item number by Headquarters Retail Marketing may be produced and sold.
