Area and Districts should consider establishing auxiliary Collections and Package Pick-ups in order to capture volume generated. Communication and a plan to ensure obtained volumes are transported to the local processing center. Personnel on duty should check collection boxes at post offices, lobby drops and Self Service Kiosks (SSKs) for overflow situations on Monday, January 20, 2020.

- Ensure only one Delivery Point Sequence (DPS) run on Tuesday (no double runs of DPS).
- Ensure all mail retrieved from freight house and processed for on time delivery on Tuesday.
- Utilize a RPG model for DPS processing on Saturday night, Sunday, and Monday morning that ensures an early DPS dispatch for Tuesday delivery.
- Evaluate the processing of Outgoing Priority on the day of the holiday to avoid late clearance on Tuesday. (Sites not processing priority on the holiday must create an early collection plan to start outgoing operations earlier.)
- Assign SWYB to avoid VAP issues to THS.

Plant Managers must commit that Parcel Return Service (PRS-569xx) operations will be staffed and all returns sorted, scanned and staged for our PRS partners as agreed.

Processing and Dispatch of Commercial Mailings

Specific planning activities should include:

MTSC [KB0012715](#)

Refer to the [Mail Processing Emergency Response Checklists](#) for critical actions and tasks.

Additional Information

- For all power outages, create a ticket on the [MTSC Web Ticket Portal](#) for the affected site and provide all relevant information about the outage.
- For **planned** power outages, sites must submit a Change Request (CR) form to FAP_Power_Outage_Notification@usps.gov. The CR form is available in the MTSC KB.

Upon receipt of the MTSC web ticket, the MTSC Network Operations Application Support (NOAS) team will contact Engineering to:

- Schedule graceful shutdowns of IDS, NDSS, and NGTC for **planned** outages.
- Validate functionality after power is restored for all outages.

If a system has issues going online after power is restored, then create a new ticket for the affected system and request NST assistance.

Non-Emergency Project Requests

MTSC will provide phone support 24 hours a day through the holiday, but will curtail all non-emergency support activities to ensure sufficient HelpDesk coverage during the holiday scheduling period. Normal projects and supplemental support activities will resume in the week following the holiday.

Surface Transportation Network

The Surface Transfer Centers will operate on a holiday schedule as shown on the Network Operations "Surface Operations" website at: http://blue.usps.gov/network_operations/stcs.htm

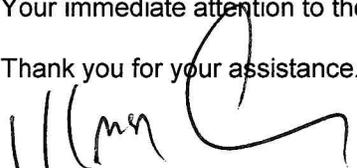

Dispatch Procedures

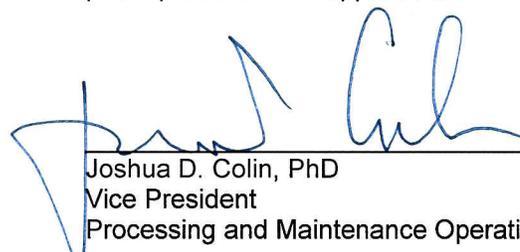

To avoid transportation delays, manage mail volume flow before, during, and after the holiday accordingly.

- Maximize utilization of available surface, commercial air, and FedEx transportation during the holiday period.
- Dispatch all mail volume inducted on Sunday and Monday nights into the network on Tuesday to avoid overflow on Wednesday's network.

Please disseminate these policies and procedures to the appropriate personnel in your area. Your immediate attention to these details and dispatch procedures is appreciated.
