VICE PRESIDENTS, AREA RETAIL AND DELIVERY OPERATIONS
VICE PRESIDENTS, REGIONAL PROCESSING OPERATIONS

SUBJECT: Operations Policy for the Memorial Day Holiday, Monday, May 25, 2026

This memorandum provides general operating policy and holiday planning guidance for the upcoming 2026 Memorial Day Holiday (observed on Monday, May 25, 2026). Service levels for this holiday are displayed in Exhibit 125.22 of the *Postal Operations Manual* (POM).

Memorial Day is a widely observed holiday, which means that many businesses are closed and not producing outgoing mail. There will be no regular delivery service except for Holiday Premium Priority Mail Express and Holiday Same Day Package delivery. Personnel on duty should check collection boxes at Post Office, lobby drops and Self-Service Kiosks (SSKs) for overflow on Monday, May 25, 2026.

Delivery Operations

All offices should carefully review their staffing plans for this holiday and adjust as necessary to meet the needs of their communities.

- All delivery units should act prior to this date to ensure that units are in a current package and mail delivery status.
- For planning purposes, Post Offices should use recent mail volume trends and adjust for any unforeseen local circumstances.
- The pre- and post-holiday surveys adhering to delivery compliance to these plans must be completed with accuracy.

Tuesday, May 19, 2026:

- Local management should review the Amazon Route Book for the following week's holiday drop times for our same day mailer. Route Books will be available through the [HQ External Customer Integration SharePoint](#), [Power BI Routebook](#) and via a My Post Office (MyPO) certification link.
- A delivery manager or supervisor must:
 - Post the holiday work schedules and review attendance patterns to be addressed prior to the holiday.
 - Ensure compliance to the Triangulation Pull Up Play Escalation leading into the holiday weekend.

Saturday, May 23, 2026:

In addition to regular (Saturday) delivery and collections, all delivery offices should:

- Take appropriate action to ensure units remain in a current status; the goal is to have zero delayed or curtailed mail volumes going into the holiday.
- Plan and schedule in alignment to address efficiencies to ensure late carriers, service, scanning indicators, overtime and penalty overtime impacts are reduced.

Sunday, May 24, 2026:

- Normal (Sunday) service levels will be provided in delivery operations including Sunday/Holiday Priority Mail Express and Sunday/Holiday Same Day Package Delivery (HUB and spoke structures).
- Management should schedule based on Dynamic Routing (DRT) projections versus actual hours:
 - Carriers should **not** be scheduled prior to Distribution Up Time (DUT).
 - Carriers should be loading their vehicles **within 15 minutes** of their begin tour.
 - Carriers should be delivering packages **within 45 minutes** of their begin tour.
- EAS must use Delivery Management Systems (DMS), when available, to confirm proper scanning and delivery of Sunday parcels has been completed at all locations.
- There will be Amazon Night Owl drops scheduled Saturday night into Sunday for Sunday delivery.
- **Delivery of any product (including delayed mail delivery) not committed on this day will only be approved by the Vice President for that assigned Region, with prior notification provided to the Chief, Retail and Delivery Officer.**

 - Collections must start and run on time to meet the Dispatch of Value (DOV) to the mail processing facilities.

Tuesday, May 26, 2026:

Return to normal service levels.

- Ensure planning and scheduling with craft and EAS are in alignment to reduce splitting open assignments while addressing efficiencies, eliminating late carriers, service and scanning failures and minimizing overtime accumulation.
- Take appropriate action to ensure units remain in a current status; the goal is to have zero delayed or curtailed mail volumes.
- Review past performance and work with In-Plant Support and Network Operations on transportation.
- Full local management engagement, to include reducing and eliminating telecoms during morning operations to support the front-line delivery teams, is required.
- Plan and schedule in alignment to support leave and return times **without** conducting 6:00am to 9:00am package deliveries.
- Delivery managers and supervisors should plan for additional mail volume and packages for delivery after the holiday **without** pre-touring carriers.

- Plan and schedule in alignment to address efficiencies ensuring service, scanning performance, late carriers, overtime and penalty overtime impacts are reduced.
- Collections must start and run on time to meet the DOV to the mail processing facilities.

Retail and Post Office Operations

Management should review staffing plans and adjust as necessary to meet the needs of their communities using recent and same period as last year (SPLY) retail sales trend information and mail volumes.

Management should ensure SSK, Rapid Dropoff Station (RDS), and Smart Locker consumables and supplies are fully stocked and postage stamps/mailing supplies (Expedited Packaging Supplies, ReadyPost, Greeting Cards, Gift Cards) are available for customers.

Offices should display proper “door cling” signage prior to the holiday. Visibly taped or handwritten signage is not acceptable. Advise customers of any Contract Postal Units (CPUs) or Approved Shipper (APS) locations where retail services will be available on the Memorial Day holiday and provide them with the hours of operation.

Offices should ensure their facilities are cleaned and maintain their daily PS Form 4852/Line H requirements for custodial operations.

Saturday, May 23: Normal (Saturday) service levels will be provided in Retail and Post Office Operations.

- Remote Forwarding System (RFS): Ensure undeliverable parcels are processed timely to avoid backlogs through the holiday.
- Parcel Return Service (PRS): Dispatch PRS as scheduled. If needed, escalate non-picked up package issues to your Business Service Network (BSN) representative, and annotate in [RADAR](#). For Return Delivery Units (RDU), follow the 48-hour rule before dispatching to the plant.
- Equipment: Confirm all scanning equipment is operable and transmitting without incidents including: ADUS, SDUS, PASS, DSS, MDD-IO. Extra batteries should be kept on hand as needed. For ADUS and SDUS equipment, the holiday sort plan mimics the Sunday PDTAT configuration. Sites should verify their PDTAT files are correct. If changes are required, submit [RADAR Sort Plan Change Request link](#) by Thursday, May 21.
- Notice Left Shelf: Verify items receive notification or are returned according to the schedule. For post office box packages, if it fits, place in the PO box or parcel locker.
- MyPO Notifications: Check MyPO notifications, including hold mail, package pickups and redelivery. Ensure items are closed in MyPO timely. Carrier pickup requests are to be closed the same day as the request in MyPO, otherwise they will be reported as failed.
- 'First In First Out' (FIFO): Use placards, signs, and lines for maintaining FIFO to manage volume and assist with applying the correct Delivery Day Indicator (DDI).
- Delivery Day Indicator (DDI): Management oversight to ensure delivery units apply the correct DDI BEFORE scanning packages (see below). **REMINDER: After 11:00 AM, in conjunction with 15 minutes of idle time (no scans), the PASS and DSS machines will no longer have “Today” available as a DDI selection.**
- PM Parcel Distribution: Review volumes, schedules, and work all available parcels in the PM to ensure unit is clean before the holiday.
- ADUS and SDUS sites should prep and stage any on hand PM parcel volume for early ADUS/SDUS runs on the day after the holiday.

- Sorting and Staging Area: Confirm all processing equipment/containers are neat, in place, and ready for the following day. Check housekeeping: floors clear of debris, trash bins emptied, extra empty equipment staged ready for pickup.
- Verify all major mailer route books for scheduled drop times over the holiday weekend.
- Utilize the Amazon projections sent on Tuesday (5/19/26) for proper planning and scheduling.
- Confirm users have the correct PDTA access to send for routing.
- Ensure all MTE is prepped and dispatched back to plant partners.
- Ensure all SSK alerts are cleared, and consumables are filled before leaving COB (receipt tape and labels).

Processing Operations

This holiday presents an opportunity to consolidate and compress plant operations to generate savings while maintaining service performance levels. In order to take advantage of the savings opportunity, please adhere to the following guidelines:

- There will be NO cancellations on Monday holiday
- RTO volumes will not be cancelled on the Holiday
- Opening Units kept at day zero for Letters and Flats.
- Advance all available blue & orange Marketing Mail for Saturday delivery
- Review IVES scheduling to match operating plans.
- Focus on RPG Compliance and P2P (Start Time & Throughput).

- Inhibit Delivery Point Sequence (DPS) sort program regeneration prior to the holiday and re-establish afterwards.
- Utilize an RPG model for DPS processing on Sunday & Monday night that ensures an early DPS dispatch for Tuesday delivery.
- Ensure only one DPS run on Tuesday morning (no double runs of DPS).
- Communicate with Manager Customer Relations and Logistics to leverage mailer volumes available for Holiday pick up and Outgoing processing.
- Decisions for Tuesday early collection plans will be determined locally by Region/Division. (See below instructions related to processing and dispatching Commercial Mailings).
- Evaluate the processing of Outgoing Packages on the day of the holiday to avoid late clearance on Tuesday. (Sites not processing OG on the holiday must create an early collection plan to start outgoing operations earlier).
- Assign SWYB to avoid VAP issues to THS.

Processing NOCC

- Increased nightly oversight of plant performance to plan/capacity
- 24-hour coverage, including on the holiday, to provide assistance and escalation
- Increased monitoring of MMP performance to plan on Saturday & Sunday
- Increased monitoring of DPS performance to plan on Sunday & Monday
- Monitoring of all planned/unplanned Power Outages

Specific planning activities should include:

- Coordination with Business Mail Entry Unit (BMEU) Managers.
- Coordination with Detached Mail Units
- Coordination with Business Service Network Managers.
- Notifying Commercial Mailers of BMEU Holiday hours and assurance that mail which is entered will be processed and dispatched.
- Adjusting Operating Plans and RPGs to include the anticipated Commercial Mail volumes.
- Ensuring that all processed mail is dispatched on scheduled transportation on Monday night and Tuesday morning.
- Ensure communication to the field of the Air and Surface Network dispatch plans.

Plant managers must ensure that Parcel Return Service (PRS-569xx) operations will be staffed, and all returns sorted and available to PRS partners as agreed.

Plant managers are to ensure proper Priority Mail Open & Distribute (PMOD) process, especially ensuring all destinating volume receives it's stopped the clock Received at Opening Unit (RAOU) scan upon arrival.

Plant managers must ensure that Integrated Operating Plans (IOPs) between the BMEUs and Operations are updated to ensure timely induction, processing and dispatch of mail presented to the BMEU prior to and on holidays. BMEU managers must ensure that all staff at both the BMEUs and the Detached Mail Units are familiar with and execute their operations in accordance with the IOP. Local collection and cancellation plans must be coordinated with associate offices and must support the achievement of Operating Plan Precision. Managers and supervisors must plan for anticipated increased volumes after the holiday. It is vital to ensure all mail is finalized, prepared for assignment, and dispatched on the appropriate transportation network.

Plants must make plans to ensure that destinating volumes are processed to meet service goals before and after the holiday. All missorted, missent, return-to-sender and Postal Automated Redirection System (PARS) and Flat PARS volumes must be identified, finalized, prepared for assignment and dispatched on the appropriate transportation network on Saturday.

Reductions in FAST holiday constraints or facility closures will not be approved; every site must maintain appointment availability.

Plants need to ensure timely acceptance of drop shipments. Please ensure that the local FAST facility profile contact information is current. The FAST Help Desk will be authorized to contact local Plant Managers directly to resolve urgent acceptance issues. If there is a need to deviate from this guidance, please work through the appropriate office for an exception.

This non-widely observed holiday presents an opportunity to maximize processing to take full advantage of available lift and ensure service expectations are met. Please adhere to the following guidelines:

- All ISCs should work with domestic partner sites to ensure all Export mail is captured prior to holiday and all Import mail is processed or transported to the domestic site for service commitment
- Ensure coordination with Customs & Border Protection (CBP) to provide sufficient staffing to avoid backlogs

Maintenance Operations

The Maintenance Technical Support Center (MTSC) will assist mail processing sites with planned power outages in accordance with the following knowledge base (KB) article.

Facility Planned Power Outages:

MTSC [KB0012715](#)

Refer to the [Mail Processing Emergency Response Checklists](#) for critical actions and tasks.

Additional Information

- For all power outages, create a ticket on the [MTSC Web Ticket Portal](#) for the affected site and provide all relevant information about the outage.
- For planned power outages, sites must submit a Change Request (CR) form to

[FAP Power Outage Notification@usps.gov](mailto:FAP_Power_Outage_Notification@usps.gov). The CR form is available in the MTSC KB.

Upon receipt of the MTSC web ticket, the MTSC Network Operations Application Support (NOAS) team will contact Engineering to:

- Schedule graceful shutdowns of IDS, NDSS, and NGTC for planned outages.
- Validate functionality after power is restored for all outages.

If a system has issues going online after power is restored, then create a new ticket for the affected system and request NST assistance.

Non-Emergency Project Requests:

MTSC will provide phone support 24 hours a day through the holiday but will curtail all non-emergency support activities to ensure sufficient Help Desk coverage during the holiday scheduling period. Normal projects and supplemental support activities will resume in the week following the holiday.

International Service Center Operations

This widely observed holiday presents an opportunity to match processing to workload to ensure full advantage of available lift and ensure service expectations are met. Please adhere to the following guidelines:

- Use the Run Plan Generator (RPG) for staffing operations.
- Clear any delayed volumes and advance mail where possible.
- Ensure coordination with Customs & Border Protection (CBP) to provide sufficient staffing to avoid backlogs.
- Ensure Customs belts are staffed sufficiently to maximize efficiency.
- Ensure on-time clearance of FC SPRs on Friday and Saturday to avoid surface volume rolling over to Monday and Tuesday.
- Ensure processing and dispatch of Priority throughout the holiday weekend to avoid exceeding lift on Wednesday.
- Ensure all tours properly segregate, process and report CBP holds each day.
- Ensure domestic offload sites return CBP HOLDS that are captured and present them to the USPIS.

Surface Transfer Centers have normal operations for Memorial Day Holiday:

- Transportation: Normal transportation
- Operations: Normal operating hours

Dispatch Procedures

To avoid transportation delays, manage mail volume flow before, during, and after the holiday accordingly:

- Maximize utilization of available surface, commercial air, and FedEx transportation during the holiday period. Dispatch all mail volumes inducted on Sunday and Monday nights into the network on Tuesday to avoid overflow on Wednesday's network.
- Prioritization values established for planned routes ensure commercial air capacity is utilized ahead of FedEx. There should be no adjustment of capacity thresholds to add or delete mail classes under any circumstances. Do not edit the active planned route file.

Please disseminate these policies and procedures to the appropriate personnel in your area. Your immediate attention to these details and dispatch procedures is appreciated.
